

SOL-Aer® Winter Turf Blanket

Aer-Flo Inc., known for its innovative sports field products, introduces the next generation of winter turf protection. Combining a revolutionary non-woven co-polymer fabric with a proven heat-absorbing silver lace coating, SOL-Aer Turf Blankets provide improved insulation for winter-weary grass root systems.

- **Fabric:** A unique Non-Woven material that is composed of bi-component fibers: A polypropylene core sheathed in polyethylene means strength and durability, plus superior nighttime insulation.
- **Silver Lace Coating:** Combines with good sunlight penetration to increase daylight warming and decrease nighttime cooling. Same lace coating as on competitive Radiant product.
- **Fusion Welded Seams:** Eliminates sewing and allows this super tough fabric to be moved and walked on without damage.
- **Light One-Piece Construction:** Easy to hand cut without fraying, making for easier installation, removal and storage.
- **Mark-On Surface:** Allows magic marker coding for precise positioning relative to other panels, sprinklers, goal posts, etc.
- **Insect Barrier:** Light, water, & air penetrate through, but this tighter-than-woven material disallows insects from burrowing thru.

CHOOSE THE RIGHT CONFIGURATION FOR YOUR FIELD:

CHOICE 1. Silver Lace Coated or Uncoated Basic White

CHOICE 2. No Edging or Vipol® Edging with Grommets

ADDITIONAL FEATURES and BENEFITS
