

Looking for a Great addition for your Hall Of Fame?

Our TouchWall empowers schools to maintain their halls of fame without restrictions. No more running out of space to hang this season's champions. Post achievements in minutes that honor student success in any extracurricular or academic pursuit.

The cloud-based TouchWall product combines intuitively-designed software with a large format touchscreen to establish a school hall of fame like no other. Visitors to the school experience your history in high definition both inside and out of the school walls.

Our touchscreens are built to withstand the stress of high-traffic environments. A modular Windows-based PC provides all of the necessary processing power and provides an integrated solution neatly tucked into the chassis of the touchscreen. Each touchscreen comes with a three-year factory warranty that can be extended with one of our hardware add-on options.

Individual and team histories become detailed and interactive on the TouchWall. With no limit to the number of accomplishments per profile, histories are more illustrious. Multiple photo options showcase individual accomplishments across sports and with our video option, achievement comes alive and in high-definition.

Please take a look at some of the Touch Walls we have provided. [Click here to see our installation gallery.](#)
