

Domestic / Commercial Hi-Reach Cleaning Solutions

**AMELIO'S
EXCLUSIVE**

The Hi Reach Kits allow a homeowner or cleaning service to clean both vertical and horizontal elevated surfaces. Everything from textured walls, the face of a stone fireplace, return air ducts, even horizontal surfaces like plant shelves, and light fixtures. Given the number of homes and businesses with high ceilings, this is a great sales opportunity.

With the ability to mate with backpack vacuums, wet/dry vacuums, or any powerful portable, like the Clean obsessed CO711 canister you can now clean up to 25 feet from the floor.

When you order any of these kits, you get all the tools you see below, an 8' x 1-1/2" Hose, and the Hi Reach Wands (# of wands dependent on kit ordered).

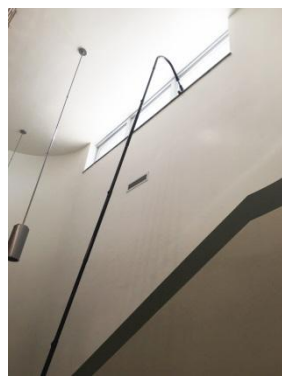

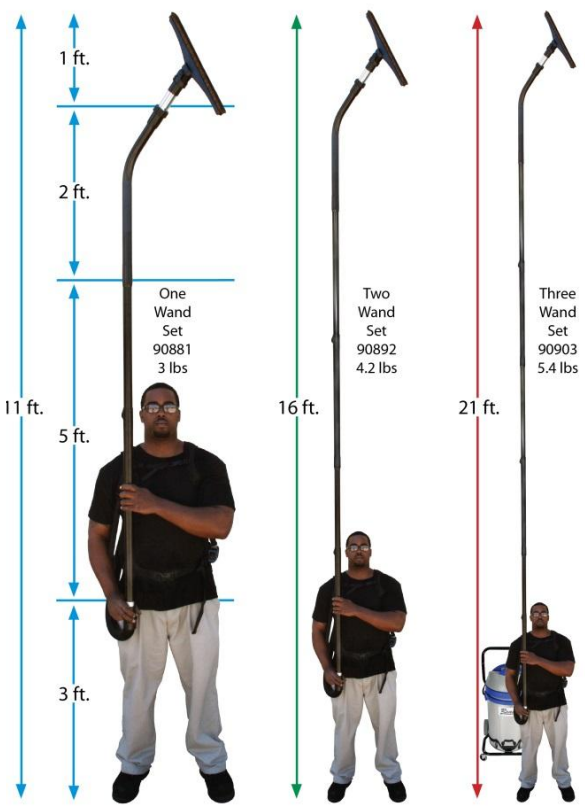

Hi Reach Kits Available in 3 reach lengths !
