ProTime Configuration Software

Version 4.0 Update

This zip file contains the version 4.0 executable file for the ProTime Configuration Software. An earlier version of the software must be installed before installing the update. The following instructions will guide you through the installation.

1. Go to the c:/Program Files (x86)/ProTime folder.
2. Rename the ProTime.exe file to ProTime Old.exe.
3. Copy the ProTime.exe from the zip file to this folder.
