

# SAVE THIS DIRECTORY!

Delivered ONLY once a year per single family home in your community!

REFERRED PROS

## YOUR HOME IMPROVEMENT CONNECTION

Bridging the gap between *highly-referred* home improvement PROS and your community!

VERIFIED

[www.referredpros.com](http://www.referredpros.com)

## THE BETTER DIRECTORY

Once a year, The **REFERRED PROS** directory is delivered to single family homes in your community. The contractors listed have been vetted by our 3rd party research company. Our team is extremely selective about who we list in our directory and we continuously monitor the listed contractors to make sure they are measuring up to their reputations. The **FREE** County directory is an annual reputation-based resource designed to make it easy to find premier local contractors that are screened and work in your area. We are a local, women-owned and family operated company based here in Colorado.

Contractors must carry insurance and follow state requirements. **REFERRED PROS** is listed as a certificate holder to each contractor so we are notified if their state insurance requirements change or are cancelled.

State law requires a business to be electronically filed and we confirm on the state site they are in good standing.

We confirm Years in Business with the Secretary of State to make sure companies have a solid history in their communities.

We cross reference each company and list their proper state licensing numbers

We check and list each companies Better Business Bureau, Google & Facebook before mailing to local communities so homeowners can identify each company's/contractor's reputation online.

**REFERRED PROS** monitors calls as a 3rd party for quality assurance and a contractor displaying the "Gold Star" in the directory earned their status by achieving excellence in:

- Answering calls in a timely & professional manner
- Communicating respectfully & clearly in scheduling appointments
- Completing high quality work without complaints from consumers using the **REFERRED PROS** Directory

**Every "Referred Pro" is as good as their last job!**

**If you have great experience, we want to hear about it and please send us a review to [info@referredpros.com](mailto:info@referredpros.com).**

**Also, incase you have a bad experience with one of the "Pros", contact us immediately at (303) 554-7010 or [info@referredpros.com](mailto:info@referredpros.com).**

**We will step in to make sure you are treated right.**

**Negatively reviewed Pros that don't resolve issues are simply kicked out!**

## ABOUT US

Since Nationwide Expos hosted its first shows in 2016, we have been growing and expanding rapidly. The staff at Nationwide Expos knows the in's and out's of home decor, remodeling, and home goods trade shows, from production and promotion. With top of the line event management and marketing teams, we are able to provide our exhibitors with professional, organized, and results driven events.

## WHY CHOOSE US

### POSITIVE VENDOR RESPONSES

Being the best is never good enough. We are consistently growing, improving, innovating, and leading the way in events production to create the absolute best experience for both Exhibitors and Consumers at our Home Improvement Trade Shows.

### FIRST TIME EXHIBITORS RETURN

Our Exhibitors' success is our number one priority. You can trust that at your business and your success are in good hands at any one of Nationwide Expos' 60+ home improvement trade shows across the country.

### ATTENDEE ENGAGEMENT

Get your brand in front of thousands of consumers looking for what you have to offer at the Local Home Show. Gather quality leads, increase your ROI and meet solution partners in your industry. We ensure your business has the opportunity to grow.

## OUR SERVICES

### SPONSORSHIPS

We leave no stone unturned when it comes to getting the word out to homeowners. No matter which Sponsorship Level you choose, each is designed to get your company the highest volume of homeowners and serious home improvement enthusiasts.

### NATIONAL ADVERTISING

Our Home Shows aren't just on TV! We are also on the Radio and Print! From Live radio remotes and interviews, from the show "Floor" to commercial spots. Front page newspaper advertising - both online and traditional publications. Billboards & Signage throughout the surrounding event area. We are there!

### DIGITAL MARKETING

As the Digital world continues to grow and grow, Nationwide Expos provides a team of Digital Marketing Experts ready to serve YOU! Social Media Advertising, Paid Ad Campaigns, Website Design / Mentions and much, much more!

## Don't Get SHOCKED by Your Home's Electrical Needs

***Buying an electric car or remodeling your kitchen? Talk to a licensed Electrician first!***

Looking at doing some upgrades to your home or possibly purchasing a new electric vehicle? Whatever the case, the cost associated with how to power those bright and shiny dreams is rarely considered until it's too late.

**Without a review of your home's electrical system, these purchases can turn from exciting to overwhelming when you realize the unexpected costs associated with powering them.**

Applewood Plumbing Heating & Electric's licensed Electricians can help.

"The first thing to consider is the electrical panel," said Brian Bach, a 27-year veteran Electrician, without hesitation. **"There is a power limit to what a fuse box can handle.** If that panel isn't big or powerful enough, or there is no more room for additional fuses, the budget required for the project could come as a surprise to some homeowners."

In Colorado, sales for electric vehicles are up nearly 15% over

last year, and it's estimated that approximately 437,000 home charging units for electric vehicles will be needed by 2030 to meet growing demand, according to a report from the International Council on Clean Transportation. Toss in a kitchen or basement remodel and you have even more electrical challenges to consider!

Bach sees these dilemmas on a regular basis. "If you're adding a charging station for an electric vehicle, beginning a remodel, or looking to add in a hot tub and the power source is 200 feet away from where that power needs to be, how do you get that electricity from point A to point B?" These are the questions a licensed Applewood Electrician can determine in advance, so you don't get shocked by unexpected costs.

**By getting an assessment of your home's electrical system ahead of making major decisions, you can save time and added costs.** Applewood Plumbing Heating & Electric has top professionals available to assist you with your electrical review and upgrade needs.

# Groundworks®

Foundation Solutions Crafted with Pride.

## DAMAGED HOME?

Repair and protect your greatest asset today!

What was it that drew you to your home? Do you still love your house today, or have ugly wall cracks or leaking water changed your mind?

**Groundworks** can restore your home's health, safety, and longevity by permanently repairing damage to your basement, crawl space, foundation, or concrete.

Take a look around your home. Do you see any of these signs?

These symptoms mean there is a problem with your foundation, basement, crawl space, or concrete.

Your house relies on its foundation for stability, but it isn't perfect. It can easily sustain damage for many reasons, many of which boil down to the soil under and around your home.

The soil throughout Colorado, including Denver and Colorado Springs, has mostly clay elements including volatile bentonite clay. Clay soil can become unstable during:

- ▲ Drought
- ▲ Invasive tree root movement
- ▲ Floods

We have developed a variety of permanent repair solutions to meet your home's unique repair needs. These include:

- > Interior Drains
- > Sump Pumps
- > Dehumidifiers
- > Vapor Barriers
- > Pier Systems
- > Wall Repair Systems
- > Concrete Lifting

Your home can benefit from some TLC and a restored foundation, basement, crawl space, and concrete slabs.

Get started with mending the broken parts of your home today by contacting our friendly and knowledgeable staff to book a free inspection and repair estimate.

PEST & TERMITE CONTROL

# There are several reasons why you might consider hiring a plumber:

## 1. Plumbing Expertise:

Plumbers are professionals who have the knowledge, skills, and experience to handle various plumbing issues. Whether it's a leaky faucet, a clogged drain, or a burst pipe, a plumber can quickly identify the problem and provide effective solutions.

## 2. Specialized Tools and Equipment:

Plumbers have access to specialized tools and equipment that are necessary for diagnosing and fixing plumbing problems. These tools are often expensive or require expertise to operate safely and effectively. By hiring a plumber, you ensure that the job is done using the right tools and equipment.

## 3. Time and Convenience:

Plumbing issues can be time-consuming to fix, especially if you don't

have the necessary skills or experience. Hiring a plumber saves you time and effort as they can efficiently address the problem, allowing you to focus on other important tasks.

## 4. Prevent Further Damage:

Certain plumbing problems, such as leaks or burst pipes, can cause significant damage to your property if not addressed promptly. Plumbers are trained to identify potential issues and take preventive measures to avoid further damage. Their expertise can help you avoid more expensive repairs in the future.

## 5. Compliance with Regulations:

Plumbing work often needs to meet specific building codes and regulations. Professional plumbers are familiar with these requirements and will ensure that any work they perform is up

to code, ensuring the safety and integrity of your plumbing system.

## 6. Reliable Solutions:

DIY plumbing repairs may provide temporary fixes, but they might not address the underlying issue. Plumbers offer reliable, long-lasting solutions that effectively resolve the problem at hand. They can also provide advice on maintenance and future prevention to help you avoid similar issues in the future.

## 7. Insurance and Warranty:

Many professional plumbers offer insurance coverage for their work. This means that if any issues arise after the repair or installation, they will take responsibility and fix it without additional cost. Hiring a licensed and insured plumber provides you with peace of mind and protects you from potential liabilities.

**Overall, hiring a plumber ensures that you receive professional expertise, efficient service, and long-term solutions for your plumbing needs.**

## Why hire a siding contractor?

There are several reasons why you might consider hiring a siding contractor for your home:

### 1. Expertise and Experience:

They specialize in the installation, repair, and maintenance of siding materials along with the necessary knowledge, skills, and experience to handle different types of siding, such as vinyl, wood, fiber cement, or metal. Their expertise ensures that the siding installation or repair is done correctly and meets industry standards.

### 2. Quality Workmanship:

Professional siding contractors are trained to deliver high-quality workmanship. They have the right tools, equipment, and techniques to ensure precise and accurate installation. Hiring a contractor guarantees that your siding will be installed properly.

### 3. Time and Efficiency:

Siding contractors are efficient in their work and can complete the project in a timely manner. They have experience working with siding materials and know the most effective methods to get the job done efficiently.

### 4. Access to Materials and Options:

Siding contractors have access to a wide range of siding materials and options. They can help you choose the right type of siding that suits your needs, preferences, and budget. They can also provide guidance on the best materials for your local

climate, ensuring that your siding withstands weather conditions and lasts longer.

### 5. Warranty and Guarantees:

Reputable siding contractors often provide warranties or guarantees for their work. This means that if any issues arise with the siding installation or repair, they will take responsibility and rectify the problem without additional cost to you. That is peace of mind for you.

### 6. Compliance with Building Codes:

Siding installation must adhere to local building codes and regulations. Professional siding contractors are familiar with these codes and ensure that the work is done in compliance with them. Hiring a contractor helps you avoid potential legal issues and ensures that your home meets safety and structural requirements.

### 7. Safety Considerations:

Siding installation may involve working at heights or using specialized tools and equipment. Siding contractors have the necessary safety training and equipment to handle these tasks safely. They prioritize safety protocols and can minimize the risk of accidents or injuries during the siding project.

In summary, hiring a siding contractor provides you with expertise, quality workmanship, time efficiency, access to materials, warranties, compliance with regulations, and enhanced safety. They can help transform the exterior of your home and ensure that your siding is installed or repaired to the highest standards.

# THANK YOU 5280!

BEFORE

AFTER

“Last year, we decided it was finally time to update the exterior of our home and I would like to share my experience. This transformation was intimidating, and it was a big financial commitment. It included replacing some really cheap, damaged siding (including sheathing and insulation), windows for the entire house, garage door and exterior doors. As we recommend, we reached out to 4 different contractors and got quotes. The quotes were all relatively similar in cost though some were a little more detailed which I found helpful. We chose 5280 Exteriors because of their consultative approach, really listening to what we were trying to accomplish, provided great ideas. It took a while to pull the trigger to start the work and once we did, we were faced with the 2021-22 supply chain challenges. Victor, our sales rep, and the owner, Bryce, were so good at giving us updates and keeping us informed through the entire process. The work was done in March of this year. Their work was top notch! They were quick, thorough, tidy and so courteous. The resulting exterior is beautiful and compliments all the work we have been doing for the past 10+ years. We have several very reputable siding and windows companies in our directory and while you cannot go wrong in working with any of them, I loved working with 5280 and could not be happier with the results.”

Susan & Sean A.  
Home Owners & Creators of Referred Pros

**Hi neighbors!**

I know how hard it is to find good contractors. In 2011 our family moved into a house described as a “solid 70s build ready for your transformation.” We loved the character or “bones” of the house; We saw so much potential to make it our dream home. We have been transforming our home to modern contemporary ever since. We spent the first 10 years re-doing the interior, stripping it down to studs, building up sunken floors, new kitchen, bathrooms, vaulting ceilings etc. To support the work, we hired residential contractors to help us with the work from HVAC, carpenters, flooring specialists, drywallers, painters, plumbers, landscapers, electricians, handymen to fence builders. We have had some great experiences and, honestly, more than our share of horrible contractor experiences that no homeowner should have to deal with. For that reason, my husband, Sean, and I created the Referred Pros directory you hold in your hands. It is an annual free reputation-based county directory designed to make the process of finding the best and most reliable residential contractors in your community easy. Referred Pros is a local, women-owned and family operated company based here in Colorado. We are extremely selective about who we put in our directory and continuously monitor contractors to make sure they are living up the “Gold Star” status we expect of them.

We are not done with transforming this house and sometimes I wonder if we ever will be. I am glad to know that we now have a single, trusted source, the Referred Pros Directory, to go to when we need contractors again. I hope you find it helpful and welcome your feedback at [info@referredpros.com](mailto:info@referredpros.com)
