THE BETTER DIRECTORY

Once a year, The **REFERRED PROS** directory is delivered to single family homes in your community. The contractors listed have been vetted by our 3rd party research company. Our team is extremely selective about who we list in our directory and we continuously monitor the listed contractors to make sure they are measuring up to their reputations. The **FREE** County directory is an annual reputation-based resource designed to make it easy to find premier local contractors that are screened and work in your area. We are a local, women-owned and family operated company based here in Colorado.

Contractors must carry insurance and follow state requirements. **REFERRED PROS** is listed as a certificate holder to each contractor so we are notified if their state insurance requirements change or are cancelled.

State law requires a business to be electronically filled and we confirm on the state site they are in good standing.

We confirm Years in Business with the Secretary of State to make sure companies have a solid history in their communities.

We cross reference each company and list their proper state licensing numbers

We check and list each companies Better Business Bureau, Google & Facebook before mailing to local communities so homeowners can identify each company's/contractor's reputation online.

REFERRED PROS monitors calls as a 3rd party for quality assurance and a contractor displaying the "Gold Star" in the directory earned their status by achieving excellence in:

- Answering calls in a timely & professional manner
- Communicating respectfully & clearly in scheduling appointments
- Completing high quality work without complaints from consumers using the **REFERRED PROS** Directory

Every "Referred Pro" is as good as their last job!
If you have great experience, we want to hear about it and please send us a review to info@referredpros.com.
Also, incase you have a bad experience with one of the "Pros", contact us immediately at (303) 554-7010 or info@referredpros.com.
We will step in to make sure you are treated right.
Negatively reviewed Pros that don't resolve issues are simply kicked out!

DAMAGED HOME?

Repair and protect your greatest asset today!

What was it that drew you to your home? Do you still love your house today, or have ugly wall cracks or leaking water changed your mind?

Groundworks can restore your home's health, safety, and longevity by permanently repairing damage to your basement, crawl space, foundation, or concrete.

Take a look around your home. Do you see any of these signs?

These symptoms mean there is a problem with your foundation, basement, crawl space, or concrete.

Your house relies on its foundation for stability, but it isn't perfect. It can easily sustain damage for many reasons, many of which boil down to the soil under and around your home.

The soil throughout Colorado, including Denver and Colorado Springs, has mostly clay elements including volatile bentonite clay. Clay soil can become unstable during:

- ▲ Drought
- ▲ Floods
- ▲ Invasive tree root movement

We have developed a variety of permanent repair solutions to meet your home's unique repair needs. These include:

- > Interior Drains
- > Sump Pumps
- > Dehumidifiers
- > Vapor Barriers
- > Pier Systems
- > Wall Repair Systems
- > Concrete Lifting

Your home can benefit from some TLC and a restored foundation, basement, crawl space, and concrete slabs.

Get started with mending the broken parts of your home today by contacting our friendly and knowledgeable staff to book a free inspection and repair estimate.

LIMITED TIME OFFER!

SAVE UP TO **\$500**

* Ten percent off any job over \$2500 up to a max of \$500. Coupon must be presented at time of inspection. Offer may not be combined with any other offer. Limit one per customer. Ask inspector for further details.

HANDYMEN OFFER a wide range of services related to home repairs, maintenance, and improvements. While the specific services can vary depending on the handyman's expertise and experience, here are some common tasks typically performed by handymen:

1. GENERAL REPAIRS: Handymen can handle various general repair tasks, such as fixing leaky faucets, repairing broken doors or windows, patching drywall, and replacing damaged tiles.

2. PLUMBING: They can tackle minor plumbing issues like unclogging drains, fixing leaky pipes, replacing faucets, installing new fixtures, and repairing toilet mechanisms.

3. ELECTRICAL WORK: Handymen can handle basic electrical tasks like replacing light fixtures, installing ceiling fans, changing outlets or switches, and fixing minor electrical issues.

4. CARPENTRY: They can assist with small carpentry projects such as building shelves, installing cabinets, repairing or replacing damaged woodwork, and fixing squeaky floors or stairs.

5. PAINTING: Handymen can help with painting projects, including interior and exterior painting, touch-ups, and applying new coats of paint to walls, ceilings, doors, or furniture.

6. ASSEMBLY: They can assemble furniture, install shelving units, mount TV brackets, hang pictures or mirrors, and handle other installation tasks.

7. MAINTENANCE: Handymen can perform regular maintenance tasks like gutter cleaning, pressure washing, deck or fence repairs, and seasonal upkeep.

8. HOME IMPROVEMENT: They can assist with small-scale home improvement projects, such as installing crown molding, replacing countertops, upgrading fixtures, or adding trimwork.

9. ODD JOBS: Handymen are often called upon for miscellaneous tasks like furniture moving, hanging curtains or blinds, changing locks, or repairing small appliances.

IT'S IMPORTANT TO NOTE that while handymen are skilled in various tasks, they may have limitations based on local regulations and licensing requirements. For more specialized or complex projects, it may be necessary to hire a contractor or a professional with expertise in that specific area.

THANK YOU 5280!

BEFORE

AFTER

“Last year, we decided it was finally time to update the exterior of our home and I would like to share my experience. This transformation was intimidating, and it was a big financial commitment. It included replacing some really cheap, damaged siding (including sheathing and insulation), windows for the entire house, garage door and exterior doors. As we recommend, we reached out to 4 different contractors and got quotes. The quotes were all relatively similar in cost though some were a little more detailed which I found helpful. We chose 5280 Exteriors because of their consultative approach, really listening to what we were trying to accomplish, provided great ideas. It took a while to pull the trigger to start the work and once we did, we were faced with the 2021-22 supply chain challenges. Victor, our sales rep, and the owner, Bryce, were so good at giving us updates and keeping us informed through the entire process. The work was done in March of this year. Their work was top notch! They were quick, thorough, tidy and so courteous. The resulting exterior is beautiful and compliments all the work we have been doing for the past 10+ years. We have several very reputable siding and windows companies in our directory and while you cannot go wrong in working with any of them, I loved working with 5280 and could not be happier with the results.”

Susan & Sean A.
Home Owners & Creators of Referred Pros

Hi neighbors!

I know how hard it is to find good contractors. In 2011 our family moved into a house described as a “solid 70s build ready for your transformation.” We loved the character or “bones” of the house; We saw so much potential to make it our dream home. We have been transforming our home to modern contemporary ever since. We spent the first 10 years re-doing the interior, stripping it down to studs, building up sunken floors, new kitchen, bathrooms, vaulting ceilings etc. To support the work, we hired residential contractors to help us with the work from HVAC, carpenters, flooring specialists, drywallers, painters, plumbers, landscapers, electricians, handymen to fence builders. We have had some great experiences and, honestly, more than our share of horrible contractor experiences that no homeowner should have to deal with. For that reason, my husband, Sean, and I created the Referred Pros directory you hold in your hands. It is an annual free reputation-based county directory designed to make the process of finding the best and most reliable residential contractors in your community easy. Referred Pros is a local, women-owned and family operated company based here in Colorado. We are extremely selective about who we put in our directory and continuously monitor contractors to make sure they are living up the “Gold Star” status we expect of them. We are not done with transforming this house and sometimes I wonder if we ever will be. I am glad to know that we now have a single, trusted source, the Referred Pros Directory, to go to when we need contractors again. I hope you find it helpful and welcome your feedback at info@referredpros.com
