

# JNU GLACIER HWY IMPROVEMENTS (LEMON CREEK AREA)

OCTOBER 2022  
CONSTRUCTION

## PROJECT DESCRIPTION

During the month of October, Secon will be paving from the end of the project (past the old Walmart) to the Renninger Street roundabout. Following that, there will be paving from Belardi Drive to the Anka Street intersection. Reconstruction of the Anka Street intersection is also planned.

Southeast Concrete will be installing curb from the Lemon Creek bridge to the Anka Street intersection and then sidewalks on both sides of the road from Anka Street past the old Walmart. Concrete medians in the middle of the road will be installed throughout the corridor as well. There will be work on the Lemon Creek bridge for the installation of guardrails and waterproof membrane. Traffic lines and permanent signs will be installed at the end of the month. These activities are weather permitting and subject to change.

## WORKZONE REMINDERS

Throughout the project there will be delays in the flow of traffic, and it is anticipated that night work will be needed for portions of the project. The construction contractor, Secon, will work to accommodate all road users. Traffic conditions and the construction schedule will be updated regularly on the project website.

**As a reminder:** Please use caution when traveling in work zones. Watch for and follow direction from construction signs and flaggers when present throughout the construction zone.

*Visit the project website for more details.*

## PROJECT TIMELINE

- **Vanderbilt Hill Road to Anka Street**
- **Anka Street to Glacier Highway Access Road**  
(near the old Walmart)
