I understand that a Merishia Massage session does not replace veterinary advice or expertise, but works in conjunction with it. My vet is aware of past and current issues that my dog had/has. My dog won't have had any new medication, vaccination or wormers within 3 days (either side) of the session. Should my animal become ill or injured any time between gaining vet permission and the session, I will inform my vet and Lucy Smith.

Privacy Policy: The personal data I collect about you will include data relating to your name and address, and the health and history of your dog. This data will be securely stored for up to 7 years, and will only be used by myself for communication with you, and will be used as a record of your dog and any changes that may occur in their health, well-being or performance. Information will only be shared with the dog's vet or other professionals as requested by you and the dog's vet.

I, Lucy Smith, work in compliance with the Veterinary Surgeons Act 66 and Exemptions Order 2015, by never working on an animal without Veterinary consent. As stated by the RCVS, 'Physiotherapy' is interpreted as including all kinds of manipulative therapy (Section 19.21), thus including massage therapy. Manipulation under massage therapy is limited to (or refers to) soft tissue and testing a joints' range of motion. Please note that I do not manipulate joints or the skeleton as part of my work, and concentrate purely on the application of safe, structured massage techniques.
