Making Trails

What We Offer

Rebuilding and restoring lives is an important and often difficult task, especially for those individuals facing the extremely difficult and challenging circumstances such as, homelessness, abuse, recovery, illness, and many other seemingly hopeless situations.

We offer Supportive Services in the face of life's most difficult times. Our programs are designed according to individual need. We provide a safe and stable environment with a loving and highly qualified team of interdisciplinary professionals to provide support to those in need. We create a clear path to success through our various supportive services and programs.

Ralph Waldo Emerson, once said,
“Do not go where the path may lead; go instead where there is no path and leave a trail.”

The K.E.E.P. Foundation has pioneered a new trail in the lives of whom we serve.
