A Taste of Fine Education

KNOWLEDGE
Uncoorked

KNOWLEDGE *Uncorked* *A Taste of Fine Education*

PROGRAM DESCRIPTION

This 1.5 day conference will provide health care professionals with evidence-based information about wound, ostomy and continence topics. An optional pre-conference debridement workshop will offer didactic and hands-on practicum for conservative sharp debridement.

PROGRAM OBJECTIVES

Understand the WOCN's role and impact in the lives of ostomy patients.

Understand the role and impact of oxygen-free radicals on wound healing.

Describe assessment findings for atypical ulcers due to pathologies such as non-atherosclerotic ischemia, inflammation, and carcinoma.

Identify two milestones in the journey that changed pressure ulcer prevention from being solely a quality initiative in your practice setting and identify your role in providing seamless transitions of care for patients with pressure ulcers.

Understand the updates in FDA approved treatments for urinary incontinence.

Understand causes of fecal incontinence and sexual dysfunction especially as it relates to post-surgical complications and describe new and up to date information on recent advances in the surgical management of fecal incontinence.

Understand the process for writing and submitting an abstract.

List three different topical antimicrobials and their roles in wound healing.
