

Anti-seize Grease

Silver 220 Anti-Seize Grease is a blend of lubricants, each with its own effective working range. Throughout this range it is a plastic-like brushable compound that can be applied to hot surfaces without flaming or obnoxious fumes. Silver 220 plates onto metal surfaces to withstand heat, pressure, wear, and corrosive environments. Silver 220 contains no particles of lead, zinc, copper, or molybdenum disulfide making it suitable for use with stainless alloys at high temps; and it is environmentally friendly.
