

School is Starting Soon!

Summer is wrapping up and the 2022/2023 school year will soon start. Supply and Multiply has more than 90 students in our program. We have students that are in need of sponsorship for school.

Many of you already sponsor a student or two and we thank you for your commitment to their futures! Most of you have been sent a letter already requesting you renew your sponsorship. We do our best to have updated photos every year. With it being summer break and the increase in instability in Haiti it is challenging to obtain all the photos. Please know that we are working diligently to get them sent to you.

Would you consider being a new school sponsor?

Would you prayerfully consider sponsoring a student for the 2022/2023 school year? For just \$360 for the year, or \$30/month, your donation provides tuition, uniform, books, and supplies for these students in Montrouis, Haiti.

HOW IT WORKS

Supply and Multiply staff children receive their education financially supported by Supply and Multiply sponsors. In addition, staff and local pastors identify children in the community in need of assistance. We can only provide this blessing through sponsors. Each year, our staff works hard to enroll the students in the sponsorship program in different schools within the community. After students are identified, our Board helps match students in the program with sponsors.
