

# FLEET SAFETY REPORT

May 2024

We search for the best fleet safety content  
each week and deliver it to you.

Data, best practices, product reviews, and news to improve your fleet  
operation.

## Tackling the Trucking Safety Challenge

Check out this great report from Cover Whale covering NHTSA's latest report on fleet crashes and their cost to the US market.

## Newer Trucks Having More Reportable Crashes through early 2024

Our Fleet-Connection data through early 2024 shows that fleet vehicles produced in the 2020-2023 time frame are having accidents at a much higher rate than vehicles produced in the 2010-2019 time frame.

Older trucks were having reportable accidents at a rate of about 3.4% while the newer vehicles were having reportable accidents at a rate of over 5%. Check out more of our fleet safety data with our [Fleet Safety News and Insights here](#).
