

RE-PLACING YOUR FILM SHEETS (REPEAT ORDER)

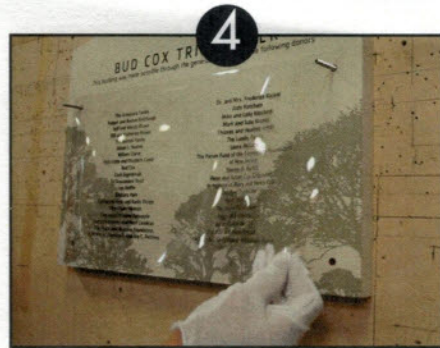

When replacing acetate, remove the top two caps and insert one stud in each hole.

Remove the bottom two caps while holding acrylic and acetate to wall with one hand.

After removing the final two caps, you can then remove acrylic and acetate from display.

Place new acetate over the two studs in the top two holes.

Place acrylic over acetate.

Replace the caps in bottom two holes.

Remove the two studs at top and replace with the caps.
NOTE: Use only acrylic cleaning solution
