

# ***RECOGNITION TREE OF LIFE INFORMATION***

## **OVERVIEW**

### **GENERAL**

Recognition Trees are available in a variety of designs and materials to suit any environment.

### **TREE TRUNKS**

#### **Traditional**

The three traditional trunk designs are sculpted in bas-relief and sand-cast in solid bronze.  
Weight: approximately 85 pounds.

As an option, the traditional trunk may also be cast from solid aluminum.  
Weight: approximately 30 pounds.

#### **Contemporary**

The contemporary design is cut from ¼" yellow brass plate, CDA alloy C26000. The brass plate is satin finished and coated with protective lacquer.

Weight: approximately 80 pounds.

### **STONES & LEAVES**

#### **Stones**

The base material of all stones is solid cast bronze with an antique hand rubbed finish. The removable plate is cut from .020" leaded brass with a satin grain finish and a clear protective lacquer coating suitable for engraving.

#### **Leaves**

The removable leaves on all tree tops and keepsake trees are die cut from .020" leaded brass with a satin grain finish and a clear protective lacquer coating suitable for engraving.

### **ACRYLIC TREE TOPS**

The tops of all Recognition Trees are fabricated from ¼" thick clear acrylic sheet. The acrylic is predrilled & tapped to accept small brass machine screws that attach the leaves to the tree top. Optional materials for the tree tops include solar bronze and solar gray acrylic tops ("smoked" acrylic) in the following shades:

- #2539 Solar Bronze
- #2514 Solar Gray

### **HELPFUL HINTS**

- All Recognition Trees are designed for interior use only.
- If the recognition program is underway prior to ordering the tree, we can ship all or some of the leaves in advance. That way, the leaves may be engraved and returned to us for attachment to the tree.
- All trees are shipped in wood crates due to their weight and size. For estimated shipping costs, please allow 300 lbs. as an average crated weight.

# TREES OF LIFE

## GENERAL

Recognition trees allows for a wide variety of designs as well as flexibility. Many of these trees may be installed as the base model and added onto as the need for additional recognition increases.

## DESIGNS

These designs utilize a full size cast bronze tree trunk or a cut-out yellow brass trunk.

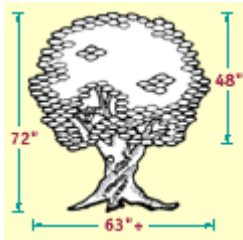

**T1 Traditional  
(Cast bronze trunk)**

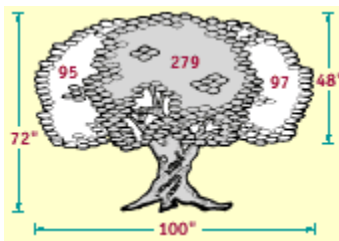

**C1 Contemporary  
(Yellow brass trunk)**

### T1 Traditional (Cast bronze trunk) C1 Contemporary (Yellow brass trunk)

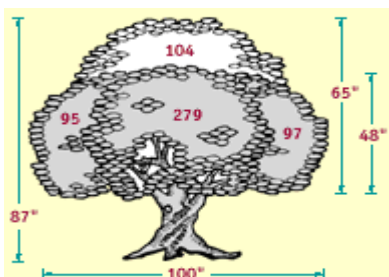

- Size: 63" Wide X 72" High
- Capacity: 279 leaves
- Leaf Design: Standard

### 1A Add-on Sides (2)

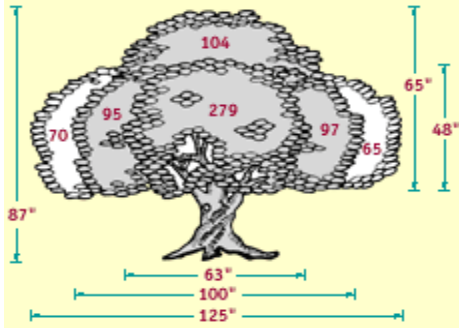

- Usage: Left and right sides for T1 or C1 Trees
- Capacity: 192 additional leaves
- Leaf Design: Standard

### 1B Add-on Top

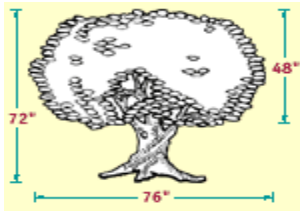

- Usage: Top for T1 or C1 Trees
- Capacity: 104 additional leaves
- Note: Must be used with 1A sides
- Leaf Design: Standard

### 1C Add-on Sides (2)

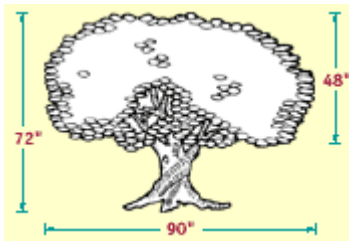

- Usage: Sides to increase the capacity of T1 and C1 trees
- Capacity: 135 additional leaves
- Note: 1C sides must be used with 1A sides although they may be used without the 1B top
- Leaf Design: Standard

### T2 Traditional (Cast bronze trunk) C2 Contemporary (Yellow brass trunk)

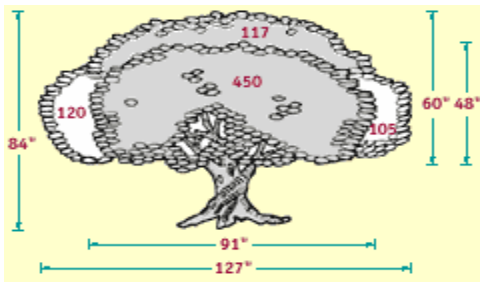

- Size: 76" Wide X 72" High
- Capacity: 350 Leaves
- Leaf Design: Standard

### T3 Traditional (Cast bronze trunk) C3 Contemporary (Yellow brass trunk)

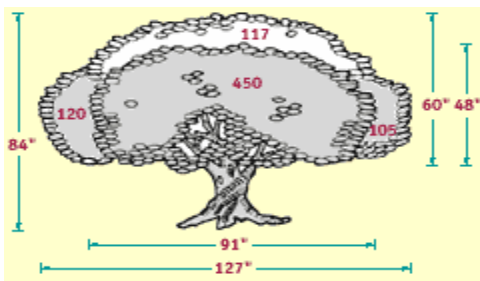

- Size: 90" Wide X 72" High
- Capacity: 450 Leaves
- Leaf Design: Standard

### 3A Add-on Sides (2)

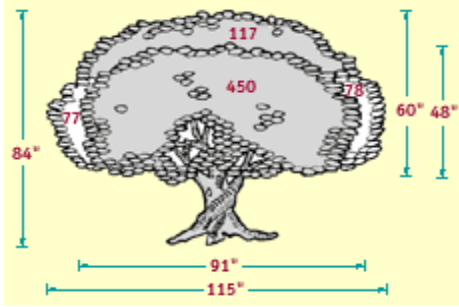

- Usage: Left and right sides for T3 or C3 trees
- Capacity: 225 additional leaves
- Note: Must be used with 3B Add-on Top
- Leaf Design: Standard

### 3B Add-on Top

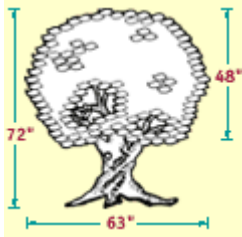

- Usage: Top for T3 or C3 Trees
- Capacity: 117 additional leaves
- Note: Can be used with or without 3A Sides
- Leaf Design: Standard

### 3C Add-on Sides (2)

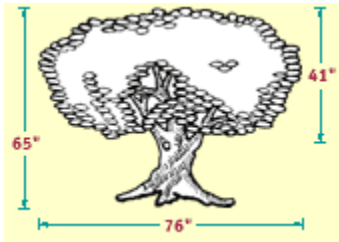

- Usage: Left and right sides for T3 or C3 trees
- Capacity: 155 additional leaves
- Note: Must be used with 3B Add-on Top; narrower sides for use with T3 or C3 Trees when space is limited
- Leaf Design: Standard

### T8 Traditional (Cast bronze trunk)

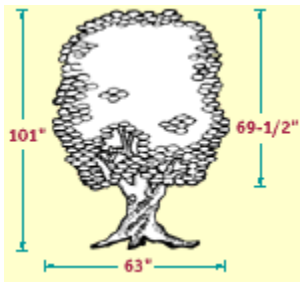

- Size: 63" Wide X 72" High
- Capacity: 188 Leaves
- Leaf Design: French Curve

### T9 Traditional (Cast bronze trunk)

- Size: 76" Wide X 65" High
- Capacity: 300 Leaves
- Note: For use when available height is limited
- Leaf Design: Standard

### T10 Traditional (Cast bronze trunk)

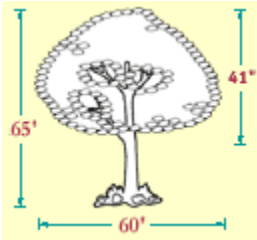

- Size: 63" Wide X 101" High
- Capacity: 450 Leaves
- Note: Taller version of T1 Tree for use when more leaves are required and height is available
- Leaf Design: Standard

## ALTERNATE VERSIONS – thinner versions & 4 stones

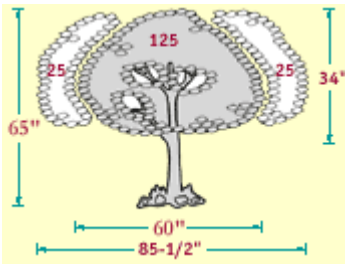

The following designs utilize a thinner version of the traditional cast bronze trunk and incorporate four small stones cast integral within the base of the trunk itself:

### T4 Traditional (Cast bronze trunk)

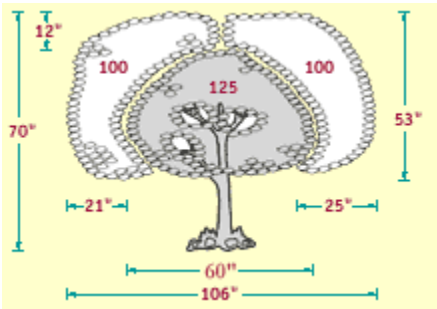

- Size: 58" Wide X 58" High
- Capacity: 125 Leaves
- Note: The four small stones are cast integral for personalization
- Leaf Design: French Curve

### 4A Add-on Sides (2)

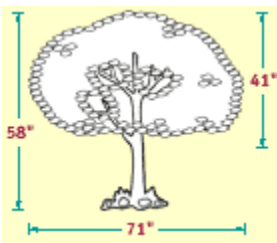

- Usage: Left and right sides for T4
- Capacity: 50 additional leaves
- Leaf Design: French Curve

### 4B Add-on Sides (2)

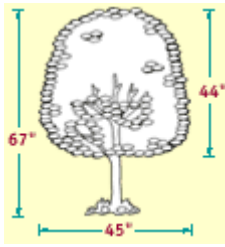

- Usage: Left and right sides for T4
- Capacity: 200 additional leaves
- Leaf Design: French Curve

### T6 Traditional (Cast bronze trunk)

- Size: 71" Wide X 58" High
- Capacity: 162 Leaves
- Note: The four small stones are cast integral for personalization
- Leaf Design: French Curve

### T7 Traditional (Cast bronze trunk)

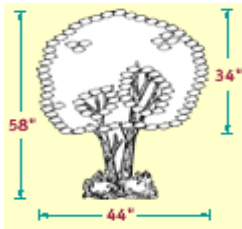

- Size: 45" Wide X 67" High
- Capacity: 200 Leaves
- Note: The four small stones are cast integral for personalization
- Leaf Design: Standard

### ALTERNATE VERSIONS – double trunk & stones

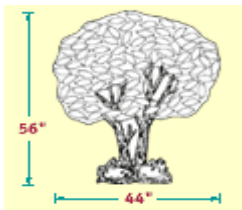

The following designs utilize a version of the traditional cast bronze trunk with a double trunk and incorporate two larger stones cast integral with the base of the trunk:

### T5 Traditional (Cast bronze trunk)

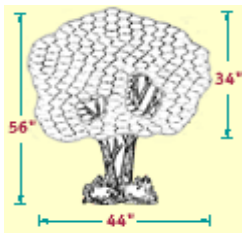

- Size: 44" Wide X 56" High
- Capacity: 80 Leaves
- Note: The two large stones are cast integral for personalization
- Leaf Design: French Curve

### T11 Traditional (Cast bronze trunk)

- Size: 44" Wide X 56" High
- Capacity: 81 Leaves
- Note: The two large stones are cast integral for personalization
- Leaf Design: French Curve, installed in a random, scattered pattern

### T12 Traditional (Cast bronze trunk)

- Size: 44" Wide X 56" High
- Capacity: 160 Leaves
- Note: The two large stones are cast integral for personalization
- Leaf Design: standard

### HELPFUL HINTS

- Additional sizes and designs may be developed utilizing standard features (such as trunk and leaf designs)
- Custom trunks, shapes and sizes may also be developed upon request
- All Recognition Trees are for interior application only

# **TREE LEAVES & STONES**

## **GENERAL**

All standard leaves are die cut from .020" leaded brass engraving stock. They are shipped preinstalled to the acrylic tree tops using 4/40 X 3/16" brass round head machine screws. When the leaves are attached to the acrylic top, the clear protective sheeting is removed from each leaf. If we pre-ship the leaves for engraving, *the clear sheeting is left on the leaves for protection.*

The stones for the traditional trees are sculpted cast bronze and have a .020" leaded brass plate attached to the surface for engraving. The contemporary stones are cut from 1/4" thick yellow brass (matching the contemporary trunk) and have a .020" leaded brass plate for engraving.

We do NOT provide engraving services for these products. Usually, a local trophy shop can provide this service for you at reasonable cost.

## **LEAVES**

### **Standard Leaf**

- Size: 4" X 1-1/2" x .020"
- Material: Leaded brass
- Usage: T1, T2, T3, T7, T9, T10 and T12 trees

### **French Curve Leaf**

- Size: 4-3/4" x 2-1/8" x .020"
- Material: Leaded brass
- Usage: T4, T5, T6, T8 and T11 trees

### **Keepsake Leaf**

- Size: 2-3/4" x 1-3/8" X.020"
- Material: Leaded brass
- Usage: Keepsake trees (all sizes)

## **STONES**

### **Small Bronze**

- Size: 5-1/2" x 3-1/2"
- Material: Cast bronze stone with 4-3/4" x 2-3/4" x .020" blank brass plate for engraving

### **Large Bronze**

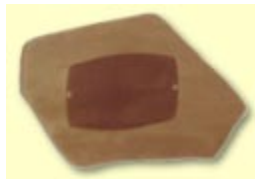

- Size: 7-1/2" x 5"
- Material: Cast bronze stone with 5-3/4" x 3-7/8" x .020" blank brass plate for engraving

### Small Brass

- Size: 7" x 4-3/4"
- Material: 1/4" thick cut out yellow brass with 4-3/4" x 2-3/4" x .020" blank brass plate for engraving

### Large Brass

- Size: 11-1/2" x 8"
- Material: 1/4" thick cut out yellow brass with 5-3/4" x 3-7/8" x .020" blank brass plate for engraving

### CAST DONOR STONES

- Size: 12" x 8", "Rock-Edge" border design
- Material: Cast bronze with integral, cast copy (up to four lines)

### HELPFUL HINTS

- If donor names are known at the time the tree is ordered, request that the leaves be sent to you in advance. Once they are engraved, return them for assembly on the tree top.
- All leaves and the plates for the stones are made from leaded yellow brass with a clear, protective lacquered finish. Once they are engraved, an oxidizing solution may be used to turn the copy black.
- Handle leaves carefully when removing or replacing from the tree top. To prevent scratching, wrap each leaf separately, allowing no contact with other leaves.
- Silver colored aluminum leaves and copper leaves are also available in .020" material. Different material colors (brass, silver and copper) can be used to designate different levels of giving. In addition, other colors and metals are available by special quotation.
