

ImageCast Plaques

Where Pictures Tell the Story

ImageCast™ is one of the identification and recognition industries' most innovative new products. "Only ImageCast™ offers the ability to create truly personalized plaques that combine the enduring beauty of cast bronze with the detailed look of a photograph."

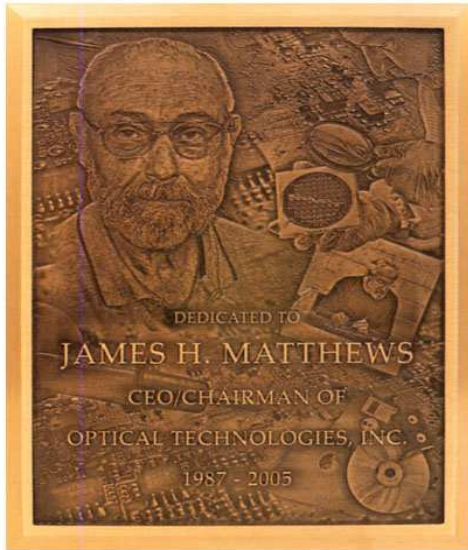

A picture is worth a thousand words – and multiple photos are priceless when used on cast metal plaques for signage. Customer-supplied photographs are used to create aesthetically-pleasing designs that are cast as well-defined images on **bronze** or **aluminum** plaques.

Medallion Portraits

Medallion Portraits enable customers to reproduce favorite photographs in bronze. They offer the durability of cast bronze, are economically priced, can be added to any standard or custom size cast plaque. They feature an elegant antique finish that is a beautiful complement to any standard of custom background finish on the plaque.

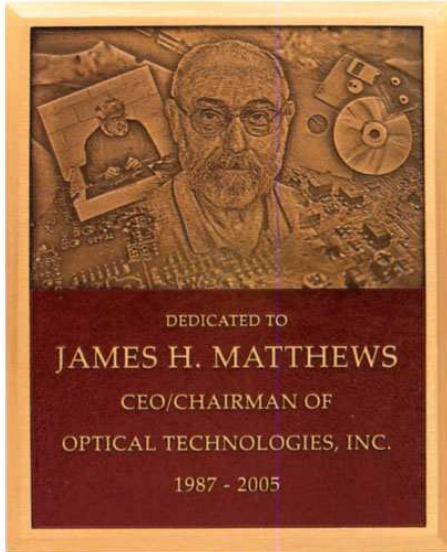

Collage Series

The Collage plaques are a premium product for recognition, signage, historical markers or any form of identification that tells a pictorial story. The entire plaque includes photo images with the inscription over the imaged area.

- Inscription over imaged area
- Antique finish only
- Premium level of recognition

Legacy Series

The Legacy Series includes a separate text area. Standard or custom background finishes can be applied to the text area.

- Isolated text area
- Any standard or custom background finish on text area

Combines the art of casting with the use of photography to offer unmatched personalization with the durability only cast metal affords. Creates one-of-a-kind, highly-detailed identification and recognition products by reproducing finely-detailed photo images on cast metal plaques. Diamond Shield™ finish is applied to each plaque to preserve the beauty of the metal. Various sizes and shapes can be cast and color can be added to meet customer's identification and recognition needs.

Requirements for ImageCast Photographs

The highest quality photos will product the highest quality cast image.

TIPS FOR CHOOSING PHOTOS:

- Choose original photos in black & white, or color.
- Choose photos with good contrast. Avoid washed out photos.
- Photos that are out of focus, faded, or need to be retouched because of scratches, tears, or stains, etc. may result in extra charges.
- If only a portion of a photo is to be used, that portion must be **clearly specified**. (e.g. are all of the people in the photo included? Which background images are essential? What should or can be omitted?)

TIPS FOR SCANNING PHOTOS:

- Choose resolution of 300 dpi for a standard size photo for a standard size (approx. 3" x 5").
- Photos may be in either a horizontal or vertical format.
- File formats accepted: JPG, PDF, EPS, PSD, TIFF

HOW TO SEND PHOTOGRAPHS

- Digital Photographs; Save the photo with the reference name followed by the ranked number & make a printout of the photos or create a digital file (.doc/.pdf) with specific instructions
- Write your photo reference name/number on the back of the photographs.
- If sending multiple photos, rank photos in order of importance, with #1 being most important.
