PACIFIC NORTHWEST III UPDATE

STATUS: I am attempting to update our trip information. My son Jake sends me regular news updates as they are making progress opening the road to the Mt. St. Helens *Johnston Ridge Observatory*. This gives me hope but there are still a lot of questions to be answered especially when you are traveling on a large bus with 54 people.

SCOUTING TRIP: I am flying to Portland on July 11 where I will visit family and check every stop on our trip. I will carefully go through all aspects of the entire trip. I am eager to do this, get all my questions answered, and to firm up details for this awesome trip!

ATTACHMENT: Attached is a *tentative* updated itinerary and list of qualifying hikes.
