Academic Honors | Awards | Activities

President, University of Minnesota Cyber Defense Team: 2023-2024. *(As President, Soren is responsible for the overall research and projects direction of the organization, oversees funding, and is responsible for establishing and retaining partnerships with University departments, CCDC representatives, and industry and government partners. He is also the liaison between CDT and the University and departmental administrations. Further, Soren held office hours to assist students with CCDC information, mentoring and course tutoring.)*

Research Fellow, University of Minnesota History Through VR Lab: 2023 to present. *(The History Through VR Lab has the distinction of being the first humanities VR lab at University of Minnesota. Soren proposed the lab to the Office of the Dean of the College of Liberal Arts in Spring 2024. He sought National Endowment for the Humanities [NEH] and additional grants to fund the research & development.)*

Chair, IEEE Student Branch, University of Minnesota: 2023-2024 academic year. *(Soren was elected Chair at the annual IEEE Board elections meeting on April 26, 2023.)* IEEE is the largest association of technical professionals in the fields of Electrical & Computer Engineering, Telecommunications, Electronics, and other allied disciplines. IEEE at the University of Minnesota has been the official student branch of IEEE on campus since 1916, with focuses on research standards, professional networking, technical innovation, and sustainable development.

Unify Challenge: College Bowl Participant, Florida International University, Miami, Florida, 06 October 2022. *(Soren participated in this event with encouragement from one of his*

professors, Dr. Lindsay Maxwell. The event is sponsored by Unify America, and pairs students with opposing viewpoints from various universities across the United States and brings them together for an hour-long conversation and debate. The topics are in the areas of mental health, climate change, policing, student loans, and immigration. For additional class credit, Soren wrote a paper on this experience.)

PHI ALPHA DELTA ($\Phi\Delta$), Florida International University, Miami, Florida, initiated as a new member 13 September 2022.

Peer Tutor, Introduction to Logic, Florida International University: Fall 2022

Teaching Experience

Lecturer, University of Minnesota. HIST 1811. The Sixties: History and Memory: Spring 2023. *(Soren was selected by History PhD Candidate Catherine Ulep, the primary course instructor, to lecture on Nixonian-era political and social history for a portion of the semester. Soren prepared undergraduate lesson plans, delivered lectures, led group discussions, and assigned and graded writing assignments.)*

Guest lecturer, Florida International University. AMH 2020. American History Since 1877: Fall 2022

Professional Societies

American Historical Association (AHA): 2020 to present

Institute of Electrical and Electronics Engineers (IEEE) Computer Society: 2020 to present

Healthcare Information and Management Systems Society (HIMSS): 2020 to present

Public Policy and Government Activities

Appeared at the White House before Executive Branch officials from Office of Management and Budget and White House Counsel's office to present position testimony on the ONC Cures Act Final Rule: 20 February 2020

Invited Presentations

Threats and Trends: Exploring Today's Cybersecurity Landscape, April 07, 2022. *(Soren appeared as the malware expert on a cybersecurity panel which included the Special Agent in Charge of the Chicago field office of the United States Secret Service. The panel discussed the top cybersecurity concerns and provided actionable steps to help mitigate risk.)*
