

TuneUp+

Soybeans

Planter Box Treatment and Microbial System for Building Root Mass and Optimizing Nutrient Uptake

TuneUp+ Soybeans is a best-in-class 80/20 talc/graphite combination that ensures optimum performance in today's high-speed planters. Specifically designed to fix Nitrogen and enhance overall crop performance while taking the place of any seed fluency agent.

The base product also includes Iron and Manganese. These micronutrients are essential building blocks to drive fast emergence and strong, healthy plants.

RECOMMENDED CROPS

Soybeans

FEATURES & BENEFITS

- **Drives early-season** taproot nodulation and nitrogen fixations
- **Builds strong, healthy plants fast**
- **Generates massive root structure**
- **Puts soybean in the position** to manage season-long stressors and optimize genetic potential
- **Herbicide tolerant Bradyrhizobia strain (patent #8772576)**

DIRECTIONS FOR USE

Once ready to plant, remove the red stoppers from the BIO-CAPSULES. Push down on the buttons atop the pail to activate the biologicals and release them into the base. Cap the jug and shake aggressively to blend. Do not activate BIO-CAPSULES until ready to use. If activated, product is good for 7-10 days.

Use Rate: The combined products treat 40 units of soybeans at 140k seeds per unit.

Storage: Store in a closed, dry area and in original container and keep sealed. Do not contaminate food, water or feed by storage or cleaning of equipment.

Packaging: Sold in 2-jug cases to treat 80 units of soybeans. Each jug is capable of treating 40 units of soybeans.

ACTIVE INGREDIENTS

Talc.....	78.40%
Graphite	20.00%
Iron (Fe).....	0.70%
Manganese (Mn).....	0.90%
* Derived from Manganese Oxide and Ferrous Oxide	
Proprietary Triple-Stack RACEReady™ Bradyrhizobia Inoculant ONE MILLION CELLS PER SEED	
TERRASYM®	
Microbial content.....	2.00%
Methylobacterium gregans.....	1x10 ⁹ CFU/g
Inert Ingredients.....	98.00%

For best results, use in conjunction with Residue Release to manage residue, build stronger stands and unlock early-season nutrients.

TuneUp+ Soybeans is powered by BIO-CAPSULE TECHNOLOGY (BCT) - a patented delivery system that helps farmers save time, labor and fuel. The BCT carrier system allows for the addition of multiple biological solutions safely packaged for convenient deployment at planting.

The TuneUp+ Soybeans BIO-CAPSULES are charged with Terrasym® and a proprietary triple-stack RACEReady™ Bradyrhizobia Inoculant.

[Ultimate coverage on every seed.]
