

# AXIS Companion video management software

Video surveillance made simple.

AXIS Companion video management software, including mobile apps for iOS and Android devices, is designed for businesses needing basic monitoring of their premises, people and assets. It offers quick and easy system setup and intuitive operation. Axis Secure Remote Access technology allows users access to live or recorded video from remote with no need for network or router configuration. AXIS Companion scales seamlessly up to 16 cameras per location. It offers tight integration with all products in AXIS Companion Line and offers the full flexibility of Axis' complete product portfolio.

- > **Easy and intuitive surveillance**
- > **Secure remote access to video**
- > **Mobile app for freedom of use**
- > **Quick, simplified system set-up**
- > **Scalable and future proof**
