

Innovative Solutions for Research, Development, and Testing

## ITL Offers a Range of Testing Services, Including:

### Mechanical Testing

- MTS Alliance RT/100 universal test frame
- MTS 810 servohydraulic - 20,000lb capacity
- MTS 318 servohydraulic - 11 0,000lb capacity
- Tension, compression & flexural grips & fixtures
- Elastomers, plastics, composites, metals
- Fracture; Compact Tension
- Hardness; Brinell, Rockwell & Micro hardness
- Cyclic Fatigue
- Izod Impact
- Viscosity

### Analytical Chemistry

- Electron Spin Resonance
- Fourier Transform Infrared Spectroscopy
- UV & Visible light
- Gas Chromatography (GC, GC-MS)
- Liquid Chromatography (HPLC, LC-MS)
- Nuclear Magnetic Resonance Spectroscopy
- Raman Spectroscopy
- Trace Metals (MP-AES, AA)

### Thermal Analysis

- Differential Scanning Calorimetry
- Thermogravimetric Analysis
- Heat Deflection; DTUL & VICAT testing

### Sample Preparation

- Centrifuges
- Ovens, autoclave, high temperature, incubators
- Metallography grinders, polishers & microscopes

### Microscopy

- JEOL 1400 TEM
- Optical, Phase

### ITL Machine Shop Equipment

- Three vertical mills and three lathes
- Horizontal and vertical band-saw
- 3-axis CNC Mills
- MIG and TIG welding capability

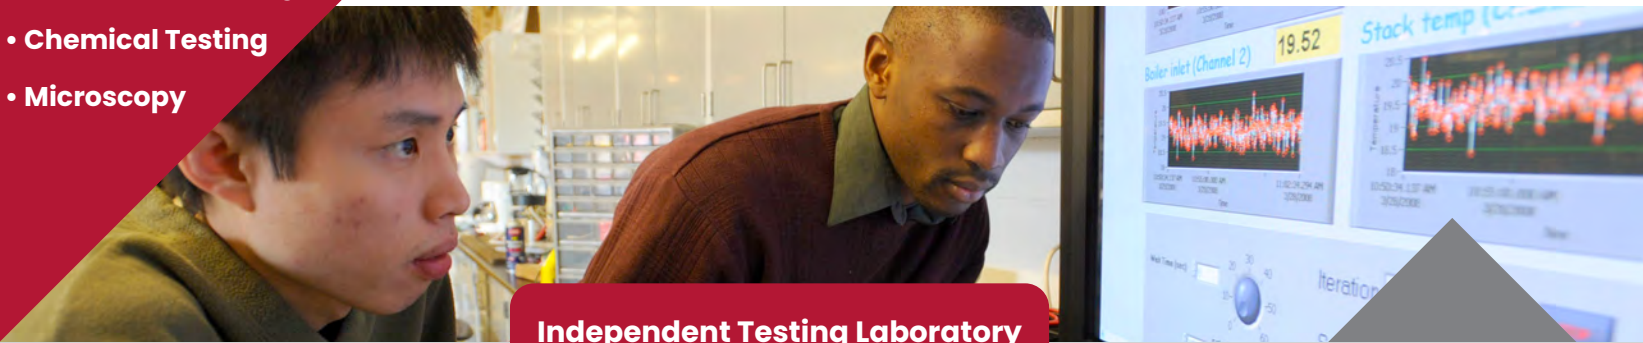

### Industry 4.0

- Form 3 Stereolithography 3D Printer
- Raise3D Fused Filament Fabrication (FFF) Printer
- Light Guide Vision System
- UR10e Collaborative Industrial Robot

ITL is Your Laboratory Partner for:

- Environmental Testing
- Mechanical Testing
- Chemical Testing
- Microscopy

Independent Testing Laboratory

Saginaw Valley State University | 7400 Bay Road, University Center, MI 48710
