

## Career Opportunity: CNC Machine Operator

Dean Construction is currently seeking a skilled and detail-oriented CNC Machine Operator to join our manufacturing team. The ideal candidate will have experience in operating CNC machines and a strong understanding of machining processes. As a CNC Machine Operator, you will play a crucial role in producing high-quality precision parts for our products.

### **CNC Machine Operator Responsibilities:**

- Set up and operate CNC machines (such as Plasma/waterjet tables, press breaks, etc..) to perform machining operations according to specifications.
- Deburr & clean parts/material as it comes off the tables.
- Load raw materials into the machine and ensure proper alignment and positioning.
- Interpret engineering drawings, blueprints, and job orders to determine machining requirements.
- Be able to operate a forklift, overhead crane, etc.
- Select and install appropriate cutting tools, fixtures, and other machine accessories.
- Monitor machine operations, adjusting as necessary to maintain product quality and meet production deadlines.
- Perform routine maintenance tasks on machines, such as cleaning, lubricating, and replacing worn parts.
- Inspect finished parts for defects, ensuring they meet dimensional and quality specifications.
- Troubleshoot machine malfunctions and perform minor repairs as needed.
- Adhere to safety protocols and maintain a clean and organized work environment.

### **CNC Machine Operator Requirements:**

- Previous experience operating CNC machines in a manufacturing environment.
- Proficiency in reading and interpreting engineering drawings, blueprints, and specifications.
- Familiarity with CNC programming is a plus.
- Strong mechanical aptitude and troubleshooting skills.
- Attention to detail and ability to perform precise measurements using calipers, micrometers, and other precision instruments.
- Ability to work independently and as part of a team in a fast-paced production environment.
- Excellent communication skills and the ability to follow instructions.
- Willingness to learn and adapt to new technologies and processes.

- Flexibility to work various shifts as needed.

**Why Join Us:**

At Dean Construction, we are committed to fostering a positive work environment where employees are valued and empowered to succeed. As a CNC Machine Operator, you will have the opportunity to work with cutting-edge technology and contribute to the production of high-quality products for our customers. We offer competitive compensation, comprehensive benefits, and opportunities for career growth and advancement.

If you are a motivated and skilled CNC operator looking for a rewarding career opportunity, we encourage you to apply and join our team.
