ANKUR SCHEME SUPPORTS THE SUSTAINABLE DEVELOPMENT GOALS

# Food Committee Mechanisms

From where will we get the food ?

The food will be provided by University canteens, Local cafes and Restaurants as well as the University mess. The food collected will be the excess food left after everyone has consumed it on the same day.

- 1) Food collected from the Mess will consist of a complete Indian meal according to the menu.
- 2) Collection of food: Food containers will be arranged by our NGO ,the team members and volunteers to collect food from the mess and hotels.
- 3) Distribution:The volunteers available at the particular time of distribution of meals will help in the transportation of the food from the sources to our venue. Food will be served as per the requirement of the children at the first serve.

# *Education Committee Mechanisms*

The children of today gear up to become the responsible adult citizens of tomorrow, therefore, education is the tool for doing so in shaping them. Ankur Yojana helps in identifying schools and providing quality education to the most marginalized and deprived children.

We take up the responsibility admitting these children into government aided schools and look after fees and other needs. If any family/person, funds the education of these children we also give them a follow up report of the child's progress.

After the enrolment we help the child with our group of volunteers to make sure he is going to school and follow up on report cards and examination of that child.

The basic necessities like notebooks, textbooks, school bag and stationary and if anything else is needed will be provided by the team of volunteers taking care of that child's education.

# The Process of Social Skill Development Plan

Social Acceptance is an activity done by an individual in order to fit in the society and act or behave like their fellows.

It is important to understand the importance of social skills as they are an integral part of functioning in society. Displaying good manners, communicating effectively with others, being considerate of the feelings of others and expressing personal needs are all important components of social skills.

To help the children develop skills and to make sure they do not face social anxiety, we take the responsibility of teaching them how to handle external pressure and teach them to not create a preoccupied image of themselves.
