Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Repossession

When a repossession occurs a vehicle owner fails to make loan payments, and the financial institution holding the title takes possession of the vehicle.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Description of work

RMH
Mitch has asked we perform the major service. (Completed, we have performed the major service with parts provided. We have also replaced the shifter bushings, selector shaft seal, the right side radiator has been removed for repair, there were numerous hoses that have been torqued/replaced, we have changed the transmission oil, replaced the water pump, installed updated hydraulic reservoir, replaced the knock sensors, cleaned/lubricated the throttle cable pivot & replaced the left side plate bulb).
E/4 Mitch has asked Michael to order the headers & heat shields from Fabspeed. (Confirmed).

CUSTOMER COPY

Date: March 16, 2012
Vehicle: Ferrari F355 Spider
VIN#: ZFFXR48A5V0106798
Color: Rossa Corsa
Mileage: 32,265
Customer: Mitch Griffin
Inspected by: Mark Darragh

Good morning Mitch.

The car runs and drives well. There are several items that need to be addressed. Here is a rough estimate of what the car needs.

	Parts	Labour	
Rear diffusers	\$344.55 (L) \$367.37 (R)	\$110	
Battery cover	\$136.67	\$110	
Roof elastic/oil	\$150.00	\$550 (5 hours min)	
CV boot	\$129.90	\$528	
Nut	\$ 11.85		
HVAC panel	\$150	\$110	
Wheel repair	\$450		
Air filter mounts	\$100.38 (6)	\$165	
Front/Rear struts	\$120 (4)	\$220	
Ball joint	\$260	\$165	
Alarm siren	\$560	\$165	
Seat re-dye	\$440		
Total	\$3220.72	\$2123	A total of \$5343.72

Please remember this is a very rough quote and is not allowing for issues that may arise during the work.

Thank you,
Mark Darragh

Return Policy: All custom mixed paints are non-returnable. There is a 30 day limitation from the date of order to remix paint or to return non-made to order products (25% restock fee less shipping and handling apply). Please call before sending anything back for individual case instructions and/or a Return Authorization number. If you are unhappy with your color match, send us the test card with the back of card completed. Any remixes are shipped to you free of charge. For additional information, please click on the E-Store Policies link from the home page.

COMMENTS MITCH: You said that this was Mobil 1 5W/30, but Mobil 1 doesn't use sodium as part of its additive package. Maybe the sodium in this sample is just residual from a different type of oil, like Valvoline, or maybe we've just got the wrong type of oil listed. The other possibility is that sodium is from antifreeze, but we don't see any other signs of a coolant leak. Metals look good (averages are based on ~1,900-miles of oil use) and potassium (a marker for coolant) is low. Fuel is fine at 0.5%. The TBN is good at 3.8 (a reading of 1.0 is low). Aside from sodium, this is a nice report!
