Mane USA Point Source Location Summary

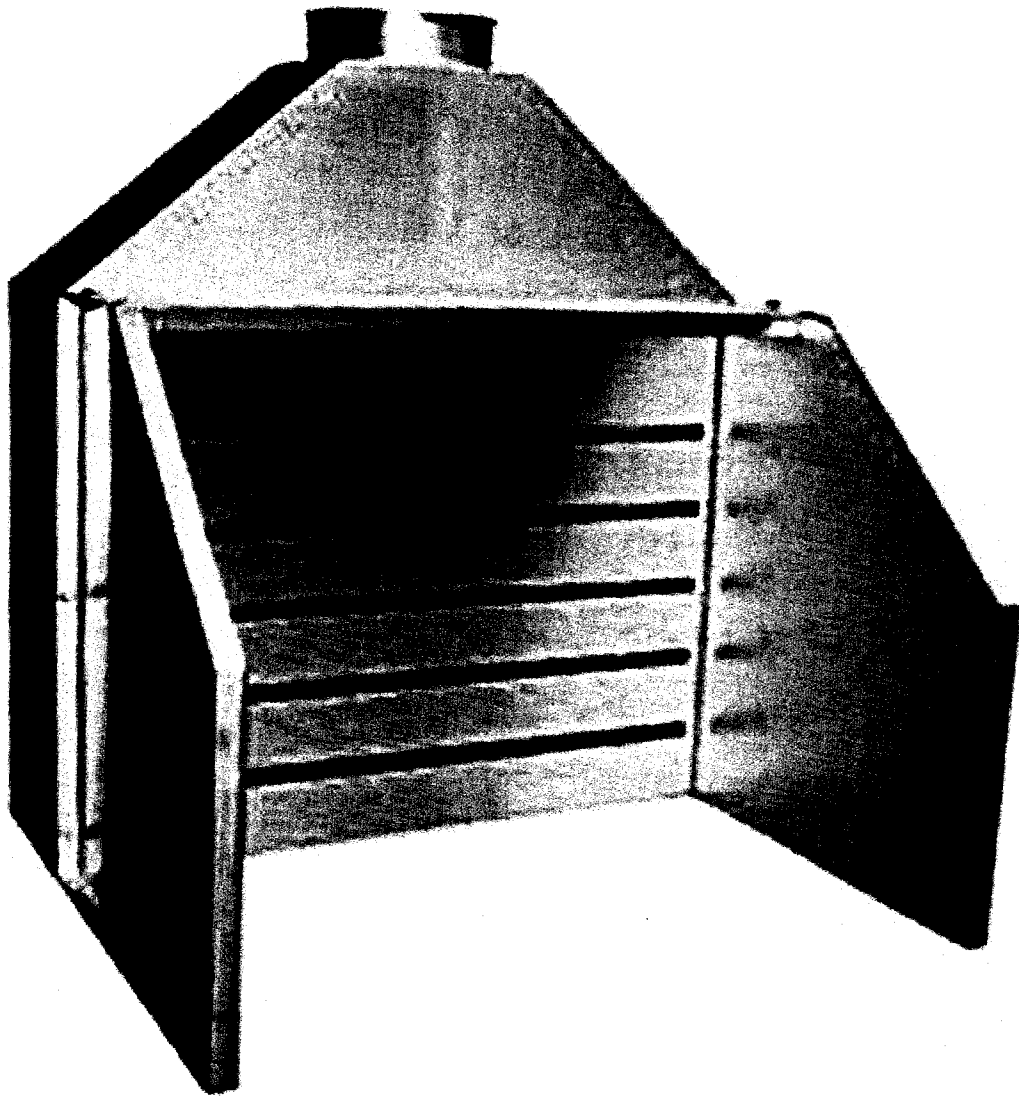

Room N°	Room designation	Utility type	Type Sub type	Designation
	Sampling	Process Exhaust Air	To Carbon Adsorption System	Cobra
	Pumping room	Process Exhaust Air	To Carbon Adsorption System	Cobra
	Cold and Flammable 14°C	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Powder room	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Refilling area	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Kardex weighing	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Small Compounding Scales	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Small Compounding Mixers	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Robot Compounding Area	Process Exhaust Air	To Carbon Adsorption System	Air Box
	Floor Pourings	Process Exhaust Air	To Carbon Adsorption System	Cobra
	Linear Valves Pourings	Process Exhaust Air	To Carbon Adsorption System	Cobra
	Mixing Mobile Containers	Process Exhaust Air	To Carbon Adsorption System	Cobra
	Manual Packaging stations	Process Exhaust Air	To Carbon Adsorption System	Cobra
	1st Floor Big Mixing	Process Exhaust Air	To Carbon Adsorption System	Cobra
	2nd Floor Big Mixing	Process Exhaust Air	To Carbon Adsorption System	Cobra
	3rd Floor Big Mixing	Process Exhaust Air	To Carbon Adsorption System	Tank Vent
	Big Packaging stations	Process Exhaust Air	To Carbon Adsorption System	Cobra
	Main Washing room	Process Exhaust Air	To Carbon Adsorption System	Specific exhaust air device
	Large Storage Room	Process Exhaust Air	To Carbon Adsorption System	Tanks vent
	Mezzanine Storage	Process Exhaust Air	To Carbon Adsorption System	Tanks vent
	Quality Control Lab	Process Exhaust Air	To Carbon Adsorption System	Fume Hood
