

**TWINS' ACADEMY
FOUNDATION**

ANNUAL REPORT

2019/2020

**PREPARED BY
BOARD OF DIRECTORS**

DESCRIPTION OF SERVICES

We continue to make greater progress since 1998. Congratulations to everyone!

All services will be provided in a traditional private K-12 academy service format. Secondary level school services will be provided in our school settings. The school facility will be able to accommodate forty students daily. To accommodate more students, we will rotate different times and days for compliance. Our facilities will feature ten classrooms, a library, eight restrooms, two computer labs, two science labs, two office areas, two cafeterias, parking, and playground with basketball/tennis court. Our non-profit, The Twins' Academy Foundation, Inc. was created for the sole purpose of raising funds to support the high-quality education provided at the Twins' Academy, Inc.

Our primary administrative functions will be performed from a separated centralized on-site setting located in each facility. Twins' Academy will target the middle/upper middle/upscale market niche segment seeking private K-12 services. They will be drawn to our organization by the high quality of our servicing professionals and staff expertise, accessible location, personal friendly service, and competitive service pricing.

Twins' Academy is financially self-supported. Clients pay tuition for services. Twenty – forty transactions have been closed per year. The average transaction size per year has been \$170,000. With expansion, the transaction will be at least \$268,000 yearly with tuition being \$6,700. With tuition rising 20%, the average transaction will be at least \$321,600 per year.

Twins' Academy is marketed with business cards, T-shirts, hats, uniforms, Facebook, Instagram, Linked In, Twitter, and websites (twinsacademyinc.com and twinsacademyfoundation.org)

Twins' Academy will find its most direct competitors to be Wilson Academy, Academy of Scholars, and Children for Christ Academy. These operations have demonstrated an ability to meet the demands of the targeted customer base.

CURRICULUM

We continue to make greater progress since 1998. Congratulations to everyone!

To compete, we have a well-known curriculum, A BEKA, to educate our students in K-12. It was created to elevate academic growth. The K-5 grade curriculum includes phonics, numbers, writing, music, foreign language, computer lab, art, science, history, PE, library, group socialization, outside play, & field trips. 6th-8th grade curriculum includes patriotism, art, computer lab, health, language, library, math, music, penmanship, phonics, PE, reading, science, foreign languages, spelling, state history, U.S. history, writing, art competitions, creative writing competitions, field trips, speech events, spelling bees, athletics, & science fairs. 9th-12th grades use ABEKA's DVD-accredited program. The curriculum includes master teachers who teach college preparatory classes such Grammar & Composition, Vocabulary/ Spelling/ Poetry, Literature, Algebra 1, History/ Geography, Science, Health, Algebra 2, World History, Biology, Labs, Plane Geometry, US History, Chemistry, Pre-Calculus, Govt/ Economics, Physics, Consumer Math, Business Math, Spanish 1 & 2, French 1 & 2, Keyboarding, Speech, Family/ Consumer Sciences, Comp Science/Coding, Novels & Biographies. The classes prepare students for standardized tests (ITBS, SAT, Standford, and ACT).

Our students participate in summer camps featuring basketball, art, music, dance, martial arts, pre-medicine, computer science/coding, history and political science, drama, engineering and science, nursing, and volleyball.

Twins' Academy will possess some other important competitive advantages that will help position it in the marketplace and help differentiate it from our competitors. We will have mandatory meetings with parents on a monthly basis. These meetings will inform parents of their child's strengths and weaknesses. Weekly progress reports will be given to children and must be returned and signed by the parents the next school day. Yearly award ceremonies will be given to students. These ceremonies will encourage students to focus on academic excellence. Monthly field trips will be planned by our field trip committee. These trips will reinforce what students read in textbooks.

Outdoor activities are important, and students need recreation. Therefore, we will have quality playground equipment on campus for our students' enjoyment and growth development. Children will be encouraged to join sports with local teams in the community. However, with a basketball court, tennis court, footballs, baseballs, and bats, our students will be able to practice these sports on our campus. With quality computer and science labs, our students will have skills to compete in the medical and computer science fields.

WHERE WE ARE NOW

We continue to make greater progress since 1998. Congratulations to everyone!

Purpose: To provide insight into the Twins' Academy's overall vision, mission, impact, student achievement, and volunteer work.

Our History: Our team of teachers and volunteers are committed to helping others in the area of STEAM. Seeing a need in this area, we created a foundation to provide relevant actionable solutions. We have consistently grown over the last 20 years, all thanks to the helping hands of this amazing community.

Our Vision: We take our convictions and turn them into action. Serving students from grades K-12, giving them the tools and confidence to naturally become high achievers, as they pursue post-secondary education and careers in the fields of STEAM

Our Mission: The Twins' Academy Foundation is a non-profit created for the sole purpose of raising funds to support the high-quality education provided at the Twins' Academy, Inc.

Twins' Academy Inc is a school that serves students from K5 to 12 grades. Our Mission is to prepare and empower students to become competent leaders in the areas of Science, Technology, Engineering, Math, and the Arts. Providing full access to STEAM programs.
