## About the Author

### **Esther Friedberg Karp, MBA**

**President, EFK CompuBooks Inc.**

[esther@e-compubooks.com](mailto:esther@e-compubooks.com)

Esther Friedberg Karp is an internationally renowned trainer, writer, business consultant and speaker who has been repeatedly listed as one of Insightful Accountant's Top 100 QuickBooks ProAdvisors in the world. She has also been named to their Top 10 list on two occasions: as Top International ProAdvisor and Top Trainer/Writer ProAdvisor.

Based in Toronto, Canada, Esther has the unique distinction of holding ProAdvisor certifications in the United States, Canada and the United Kingdom. She has authored materials and delivered educational and certification courses for Intuit in all those countries, as well as Australia where she conducted live QuickBooks Online training. She has spoken at Scaling New Heights, QuickBooks Connect and other conferences, and has written countless articles for Intuit Global.

Esther's clients include companies worldwide and accounting professionals who seek her out on behalf of their own clients. She is sought out for her expertise in multicurrency and various countries' editions of QuickBooks Desktop and Online, and for her talent in customizing QuickBooks usage for different industries. She also teaches QuickBooks Core and Advanced certification classes to accounting professionals in Canada.

Esther holds a BSc from the University of Toronto in Actuarial Science and Mathematics, and an MBA in Marketing and Finance from York University's Schulich School of Business.

She can be reached at [esther@e-compubooks.com](mailto:esther@e-compubooks.com) or 416-410-0750.

## QUICKBOOKS ONLINE TEST DRIVE

Most exercises in the other handbooks in this series can be completed using a QuickBooks Online “test drive” file. The test drive uses a sample company file called Craig’s Design & Landscaping Services. It can be accessed through the following link to a sample QuickBooks Online Plus company:

[Craig's Design & Landscaping](#)

You don’t have to create an account or sign in to access the test drive file; just complete the security validation and click **Continue**.

This test drive is designed for you to explore and try out new things without worrying you will break something or make a mistake. It is not designed to retain any changes you make. (Although you should change the Sign me out if inactive setting to **3 hours** if you want to give yourself plenty of time.) Once you close this QuickBooks Online test drive company it is completely refreshed, so remember to allow sufficient time to complete each task.

*The exercises in this handbook on expanding usability cannot be performed in the test drive company. They are designed to be completed in an actual QuickBooks Online company. These courses use a QuickBooks Online Plus company.*

**NOTE:** *When you are working in an actual company file (not a test drive company), you may see left navigation bar tabs that differ slightly from what you see here. If that is the case, the actual company is being viewed in Business View (as opposed to Accountant View). The steps in this course are following the Accountant View option. If you are in Business View, click on the **gear icon** in the top right and select **Switch to Accountant view**.*

All QuickBooks Online companies, including test drive, can be toggled between Accountant and Business View.

The screenshot shows the QuickBooks Online navigation menu. At the top right, there are icons for 'My Experts', 'Help', search, notifications, and settings (gear icon). The settings icon is highlighted with a red box. Below the navigation bar, the menu is organized into four columns: 'YOUR COMPANY', 'LISTS', 'TOOLS', and 'PROFILE'. At the bottom of the menu, there is a status bar that says 'You're viewing QuickBooks in Business view. [Learn more](#)'. A red box highlights the link 'Switch to Accountant view' in the bottom right corner of the menu.

YOUR COMPANY	LISTS	TOOLS	PROFILE

[Switch to Accountant view](#)

# Topic 1: **Payments**

## TOPIC OBJECTIVES

- Identify the functionality of QuickBooks Payments
- Recognize the features of Online Invoices
- Recognize the steps to use the invoicing portal

## FUNCTIONALITY OF QUICKBOOKS PAYMENTS

Consumers use a variety of methods – bank transfers (ACH), Apple Pay, Samsung Pay, Google Pay, and credit cards – to make payments in the store, in the field, online and via mobile devices. QuickBooks Payments allows companies to connect to their customers electronically, accommodating customer payment preferences with both credit card and bank account options.

QuickBooks Payments is the one central payment service associated with QuickBooks Online. It helps companies using QuickBooks Online get paid faster and save time, eliminating unnecessary transaction data entry and trips to the bank.

In this section, we'll learn about QuickBooks Payments and how to apply and activate it in a QuickBooks Online account.

## Features Available in QuickBooks Payments

- Supports accepting credit cards and ACH bank transfers
- Powers the payment screens (i.e., Sales Receipt and Receive Payment screens) to accept payments directly into QuickBooks Online
- Enables users to add a Pay Now button on an emailed invoice so customers can easily pay online; this automatically creates a Receive Payment transaction in QuickBooks Online linked to the invoice
- Powers mobile payments with transaction processing in the QuickBooks mobile app on mobile devices
- Funds move directly from the customer's bank account to the company's selected bank account
- There is typically a one-business-day window from the time the payment is submitted to the time it is received in the merchant's bank account. The cutoff time to get deposits the next business day is 3 p.m. Pacific Time. Payments processed after 3 p.m. go into the next deposit cycle. (Note that your first deposit with QuickBooks usually takes a little longer and should arrive within 4 to 5 days.)
- The bank deposit and merchant service fees are automatically recorded in QuickBooks Online by the QuickBooks Payments reconciliation feature. No competing accounting software can do this.
- It's the only payment service that allows credit card payments to be accepted directly in QuickBooks Online via either the Sales Receipt or Receive Payment screen
- Recurring sales receipts and credit card payments can be set up automatically
- It supports the invoicing portal referenced in the next section
- Payments made in the invoicing portal are automatically recorded in QuickBooks Online and the invoices marked as paid
- QuickBooks Payments includes the GoPayment app for mobile devices
- With GoPayment, credit cards can be swiped inside or outside of the QuickBooks Online mobile app and a card reader can be added
- GoPayment is great for those providing on-site services such as pool service technicians, electricians, personal trainers, inspectors and appraisers
- Payments are downloaded into QuickBooks Online; downloads not matched are saved and available to continue working on later
- Merchant service fees are automatically recorded with the deposit in QuickBooks Online

- QuickBooks Payments is available separately as a stand-alone pay-as-you-go payment solution if a company does not invoice customers
- More information can be obtained at <https://quickbooks.intuit.com/payments/>

**NOTE:** For those who previously used Intuit Payment Network, it is no longer associated with QuickBooks Online as QuickBooks processes both credit card and ACH customer payments.

## Step by Step: Set up a New QuickBooks Payments Account

For purposes of this activity, we will search for the permanent settings to turn on QuickBooks Payments.

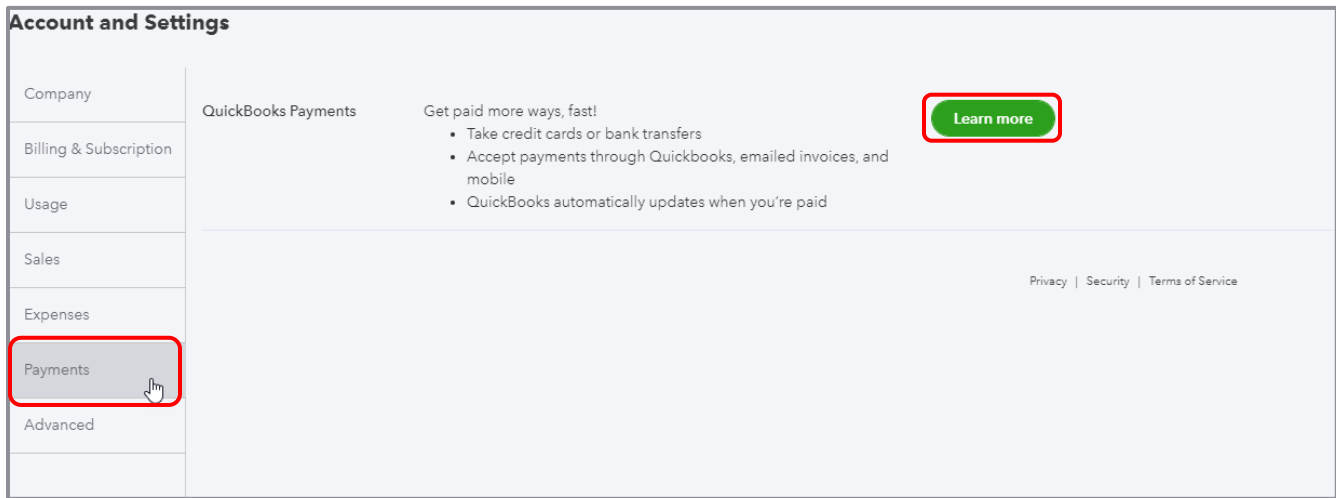

1. Open a live QuickBooks Online account; this will not work in the test drive file.
2. Go to the **gear icon** on the top right and select **Account and Settings**.

The screenshot shows the QuickBooks Online interface. At the top right, there is a navigation bar with icons for 'My Experts', 'Help', a search icon, a notification bell, and a gear icon. Below the navigation bar, a dropdown menu is open, displaying various settings categories. The 'Account and settings' option is highlighted with a red box and a mouse cursor. The menu is organized into four columns: 'YOUR COMPANY', 'LISTS', 'TOOLS', and 'PROFILE'. The 'Account and settings' option is located under the 'YOUR COMPANY' column.

YOUR COMPANY	LISTS	TOOLS	PROFILE
Account and settings	All lists	Order checks	Feedback
Manage users	Products and services	Import data	Privacy
Custom form styles	Recurring transactions	Import desktop data	Switch company
Chart of accounts	Attachments	Export data	
QuickBooks labs	Custom fields	Reconcile	
	Tags	Budgeting	
		Audit log	
		SmartLook	
		Resolution center	

At the bottom of the menu, there is a footer with the text: "You're viewing QuickBooks in Business view. [Learn more](#)" and a button labeled "Switch to Accountant view".

3. Click **Payments** on the left navigation bar.

4. For a new account, click **Learn More**.

5. Review the pricing plans available. QuickBooks Payments (1-888-236-9501 for live info) has two special pricing plans for ProAdvisors’ clients; you can add a mobile card reader (see <https://quickbooks.intuit.com/payments/readers/> for card reader choices) to either one:

- **Pay-as-you-go** - \$0/month with slightly higher processing rates
- **Monthly fee** - \$16/month with lower processing rates

For QuickBooks Online	As you go <b>\$0/mo</b> + transaction fees	Monthly <b>\$16/mo</b> + transaction fees
Card - Swiped	2.2% + \$0.25	1.5% + \$0.25
Card - eInvoice	2.9% + \$0.25	2.75% + \$0.25
Card - Keyed	3.1% + \$0.25	2.9% + \$0.25
Bank Transfer (ACH)	1% (max \$10)	1% (max \$10)

Call to sign up: 888-236-9501

These ProAdvisor client charges can be found at <https://quickbooks.intuit.com/accountants/products-solutions/merchant-services/>.

Regular QuickBooks Payments charges can be found at <https://quickbooks.intuit.com/payments/pricing/>.

### Low rates per transaction

<b>Bank Transfers</b>	<b>Credit card rates</b>
<b>1% (max \$10)</b>	<input checked="" type="radio"/> per swipe <input type="radio"/> per invoice <input type="radio"/> keyed-in
	<b>2.4% + 25¢</b>
	For cards processed with the free mobile card reader
	
<a href="#">Get set up</a>	

### Low rates per transaction

<b>Bank Transfers</b>	<b>Credit card rates</b>
<b>1% (max \$10)</b>	<input type="radio"/> per swipe <input checked="" type="radio"/> per invoice <input type="radio"/> keyed-in
	<b>2.4% + 25¢</b>
	For cards processed with the free mobile card reader
	
<a href="#">Get set up</a>	

6. Click **Get set up**.

The screenshot displays a payment interface titled "Low rates per transaction". It is divided into two main sections: "Bank Transfers" and "Credit card rates".

- Bank Transfers:** Shows a rate of **1% (max \$10)**.
- Credit card rates:** Features a horizontal slider with three options: "per swipe", "per invoice", and "keyed-in". The "keyed-in" option is selected and highlighted with a red box. Below the slider, the rate is shown as **3.4% + 25¢**, with the text "For card numbers that you type in yourself" underneath. Logos for VISA, MASTERCARD, DISCOVER, and AMERICAN EXPRESS are displayed.

At the bottom center of the interface is a prominent green button with rounded corners labeled **Get set up**, which is also highlighted with a red box.

- 7. Complete the application. The application requires basic company, owner and banking information. Most of the basic information automatically populates from what was entered during the initial QuickBooks Online company file setup.

Let's get you paid

VISA   Mastercard   DISCOVER   American Express   Apple Pay

 **Business info** Start  
Federal Tax ID (EIN), website, address, phone

 **Personal info** Start  
Name, address, phone number, last 4 of SSN

 **Deposits account info** Start  
Connect your bank account to receive payments.

By selecting "Activate Payments", I agree to the [Merchant Agreement](#) and [pricing](#), and have read and acknowledge the [Privacy Statement](#). I provide my "written instructions" authorizing Intuit to pull my credit report now and periodically in the future until I cancel my services in my [account settings](#) or by calling the Merchant Service Center.

**Activate Payments**

### Business info

We'll check info like your business type and EIN.

#### What is your business type?

Business type

Limited liability company

#### Tell us more about your work

Enter industry type and select closest match

Charitable and Social Service Organizations

Legal business name: We Care Community Foundation

Employer ID Number (EIN): [Redacted]

An EIN is a 9-digit federal tax ID issued by the IRS for businesses. [Read more](#)

Web presence (Optional): wecare.com

Please enter only 1 website. This helps us verify your business.

#### Where is your business located?

Street address: [Redacted]

Apt/Ste/Unit: [Redacted]

ZIP: [Redacted]

City: Porter Ranch

8. After completing the Business info page, click **Next**.

### Personal info

We'll use this info to verify you're the business owner.

#### Owner's full legal name

Legal first name:  Legal last name:

#### Owner's personal address

Same as business address

Street address:  Apt/Ste/Unit:

ZIP:  City:

State:

#### Let's make sure you're you

Date of birth:  Social Security number (last 4 digits):

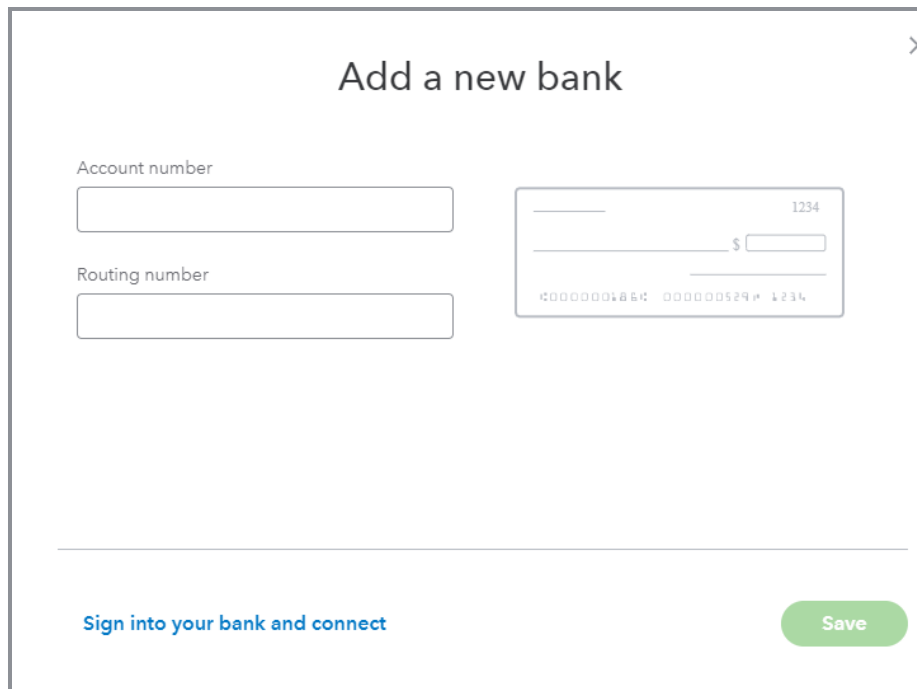

This doesn't impact your credit score.

Personal phone:

We use this for account verification.

9. After completing the Personal info page, click **Next**.

The screenshot shows a modal window titled "Add a new bank" with a close button (X) in the top right corner. The form contains the following elements:

- Account number:** A text input field.
- Routing number:** A text input field.
- Bank logo:** A small image of a bank card or logo showing a dollar sign, a small input field, and a card number.
- Buttons:** A blue link "Sign into your bank and connect" and a green "Save" button.

10. After completing the bank information, click **Save**.

- If the QuickBooks Payments application is approved, you'll receive a message congratulating you, along with a notification that you'll receive an email when your account is ready to use. The service will be available for use within 24 hours for both credit card and bank account payment processing.
- If the QuickBooks Payments application is pending review, this typically means additional information is required before a decision can be made. Normally a business should receive a reply within one to two business days.
- If the QuickBooks Payments application is declined, the merchant can call the number on the screen to inquire about details or if a mistake is suspected. Sometimes companies are declined because of the kinds of products they sell.

## FEATURES OF ONLINE INVOICES

Here we'll explore activities related to Online Invoices and the invoicing portal with which customers will interact.

- Allows the customer to pay the invoice by various payment methods (including Bitcoin) if QuickBooks Payments has been activated and enabled for the emailed invoice
- Currently, the Online Invoice is entirely “guest view,” and does not require a username and password login. Based on the payment type selected, the payer enters the payment method information each time. This information is not saved.
- Full, partial and batch payments (paying multiple invoices at once) are allowed
- Once a payment is made from the Online Invoice
  - A confirmation screen appears to the customer
  - A confirmation email is sent to the customer and merchant
  - The invoice in QuickBooks Online is automatically updated as paid
  - A Receive Payment transaction is posted and linked to the invoice
  - The customer's Online Invoice displays a status of paid and the date that payment was received
- When funds settle, the deposit transaction is automatically recorded in QuickBooks Online with the payment; the merchant service fees are recorded as an expense

---

## STEPS TO USE THE INVOICING PORTAL

Look at the Online Invoice functionality in the invoicing portal. This is available in QuickBooks Online, even if QuickBooks Payments are not activated.

### Benefits of the Invoicing Portal

- Professional invoice presentation (remember, the format of the invoice is controlled from Account and Settings)
- Consolidated messaging and attachments
- Pay Now button
- Tracking
- Transactions are automatically marked paid in QuickBooks Online
- If payment is accepted via the portal, full reconciliation will be automated within QuickBooks Online (the bank deposit and expense files for any associated fees are recorded in QuickBooks Online when the funds settle)

## Step by Step: Configure Account and Settings for Online Invoices

1. Open your QuickBooks Online account and set up the proper preferences for Online Invoices to complete the next activity.
2. Click on the **gear icon** on the top right and select **Account and Settings** → **Sales**.
3. Click **Edit** (pencil icon) to the right of the online delivery section to expand it for editing.

The screenshot shows the 'Account and Settings' interface. The left sidebar has 'Sales' highlighted with a red box. The main content area shows various settings. The 'Online delivery' section is expanded, showing a red-bordered box around the following options:

- Email options for all sales forms:
  - Show short summary in email
  - Show full details in email
  - PDF Attached
- Additional email options for invoices:
  - Online invoice (dropdown menu)
  - Cancel button
  - Save button (highlighted with a green box)

4. Use the drop-down to select **Email options** and choose **Online Invoice**.
5. Make sure the box for **PDF Attached** is *unchecked*.
6. Click **Save**.
7. Click **Done**.

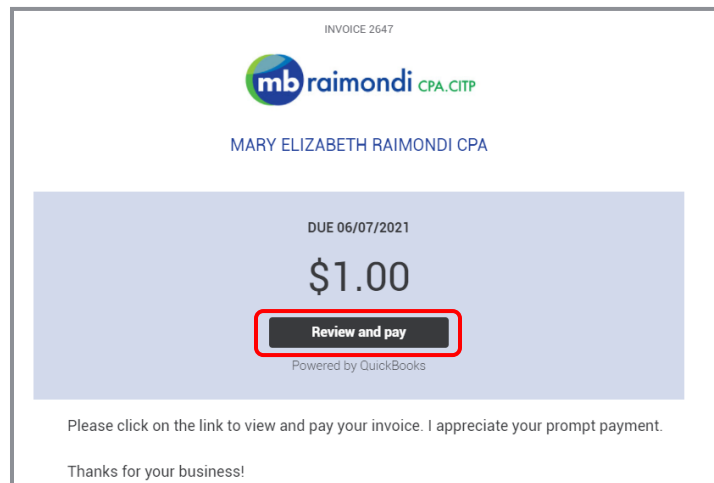

## Step by Step: Send Online Invoices

1. Open your QuickBooks Online account in which the Account and Settings were saved in the previous activity. This activity will not work in the test drive file.
2. Click **Quick Create Menu (+ sign)** at the top right and select **Invoice**.
3. Ensure the Online payments checkboxes are checked at the top of the invoice.
4. Enter the invoice details.
5. Click **Save and send** in the lower right corner.
6. The next screen shows the option to edit the subject line and/or body of the email that the customer will see. The online payment options can be turned on here as well.
7. Click **Send and close** to send the invoice.

## Step by Step: Invoice Portal from the Customer's Perspective

1. Once the invoice is sent, the recipient will receive an email with a link to view the invoice directly in the body of the email.

2. Once the customer clicks on **Review and pay**, they will see a window where they can enter their debit card, bank transfer, or credit card information to pay this invoice. The customer can click on **Edit** to change the amount they are paying. The customer can also view the invoice, download it (as a PDF) or print it.

**TOTAL DUE** **\$1.00**

THANK YOU.

The screenshot displays the Intuit QuickBooks payment interface. At the top left is the Intuit QuickBooks logo, and at the top right is a "Sign in" link with a help icon. The main content area is divided into two columns. The left column contains a payment form for a \$1.00 amount. The payment amount is displayed in large green text as "\$1.00" with an "Edit" link. Below this, there are three tabs: "Debit card" (which is selected and highlighted with a green underline), "Bank transfer", and "Credit card". The form includes fields for "Name on card" (with a placeholder "First name Last name"), "Card number" (with the value "1234 5678 9000 0000"), "Exp date" (with a placeholder "MM/YY"), "CVV code" (with the value "123"), and "ZIP code" (with the value "12345"). Below the form is a link to "Save a payment method for faster future payments. Sign in or create account." and a large green button labeled "Pay \$1.00" with a lock icon. At the bottom of the form, there is a disclaimer: "By selecting Pay, I accept the Terms of Service and have read and acknowledge the Privacy Statement. I also allow Intuit to charge \$1.00 to my card on May 30, 2021." Below the disclaimer are logos for VISA, Mastercard, DISCOVER, and Bank. The right column displays invoice details for "MARY ELIZABETH RAIMONDI CPA". The details include: Invoice 2647, Due date June 7, 2021, Invoice amount \$1.00, and Total \$1.00. Below the details is a "View invoice" button with a hand cursor over it, and icons for download and print. Further down is a "Merchant details" section with the email "mb@mbraimondicpa.com" and a dropdown arrow. At the bottom of the right column is a "TRUSTe Certified Privacy" logo and the text "Information is protected and kept confidential".

- The business can also see when the invoice was sent and when the customer viewed the invoice. When invoices are emailed, they get tracked, making it easy for the business to know when their invoice has been opened. At the bottom of the on-screen invoice that was sent out, the business owner can see a trail of when the invoice was opened and viewed, and when it was paid (if it was paid using QuickBooks Payments).

- A payment confirmation page shows the payer their payment has been processed successfully. The payer can then click **Print receipt** if desired. An email with a receipt will be sent to the payer's email address.
- Once a customer pays an invoice, an email notification is sent to the merchant and QuickBooks Online is automatically updated.
- The invoice will appear with a status of paid and the date payment was received.

Keep in mind there is no login process for your customers, so their payment card information is not saved. Customers will have to enter their bank and credit card information each time they wish to pay you.

## Topic 2: Payroll

### TOPIC OBJECTIVES

- Identify Intuit’s payroll offerings that integrate with QuickBooks Online
- Recognize the steps to set up QuickBooks Online Payroll
- Identify the various payroll reports available in QuickBooks Online Payroll

### INTUIT’S PAYROLL OFFERINGS THAT INTEGRATE WITH QUICKBOOKS ONLINE

QuickBooks Online Payroll is deeply integrated in QuickBooks Online. QuickBooks Online Payroll offerings provide tremendous value and time saving to businesses.

For more info, call 1-877-202-0537

or go to <https://quickbooks.intuit.com/payroll>.

For business owners, QuickBooks Online Payroll is available in three plans: Core (previously QuickBooks Online Enhanced Payroll), Premium (previously QuickBooks Online Full Service Payroll) and Elite.

**NOTE:** *If you wish to have your accountant handle your payroll exclusively outside of QuickBooks Online (but the information can be downloaded into QuickBooks Online), you may wish to let your accountant run payroll in [Intuit Online Payroll for Accounting Professionals](#).*

## SET UP QUICKBOOKS ONLINE PAYROLL

### Step by Step: Links to Add QuickBooks Online Payroll

1. Open a live QuickBooks Online company; this will not work in the test drive file.
2. From the left navigation bar, select **Payroll**.
3. Choose the **Employees** sub-tab.
4. Click **Get started**.

The screenshot shows the QuickBooks Online interface for a company named 'We Care Community Foundation'. The left-hand navigation menu is visible, with 'Payroll' highlighted in a red box. In the top navigation bar, the 'Employees' sub-tab is also highlighted in a red box. The main content area features a large heading: 'Conquer payroll. Empower your team.' Below this heading are three bullet points:

- Run payroll automatically and let us handle your payroll taxes.
- Manage your time and money with same-day direct deposit.
- Access health benefits, workers' comp, and HR services.

A green 'Get started' button is highlighted with a red box. Below the button, there is a link: 'Want to track employees but don't need payroll yet? [Add an employee](#)'. At the bottom, there is a note: 'Have questions? Call sales at 866-820-6337 or [chat](#)'. An illustration of two people, a woman in a blue dress and a man in a black apron, is shown on the right side of the page.

Download a PDF that details the features of the various payroll offerings [here](#).

- Choose your payroll plan and select **Sign up**.

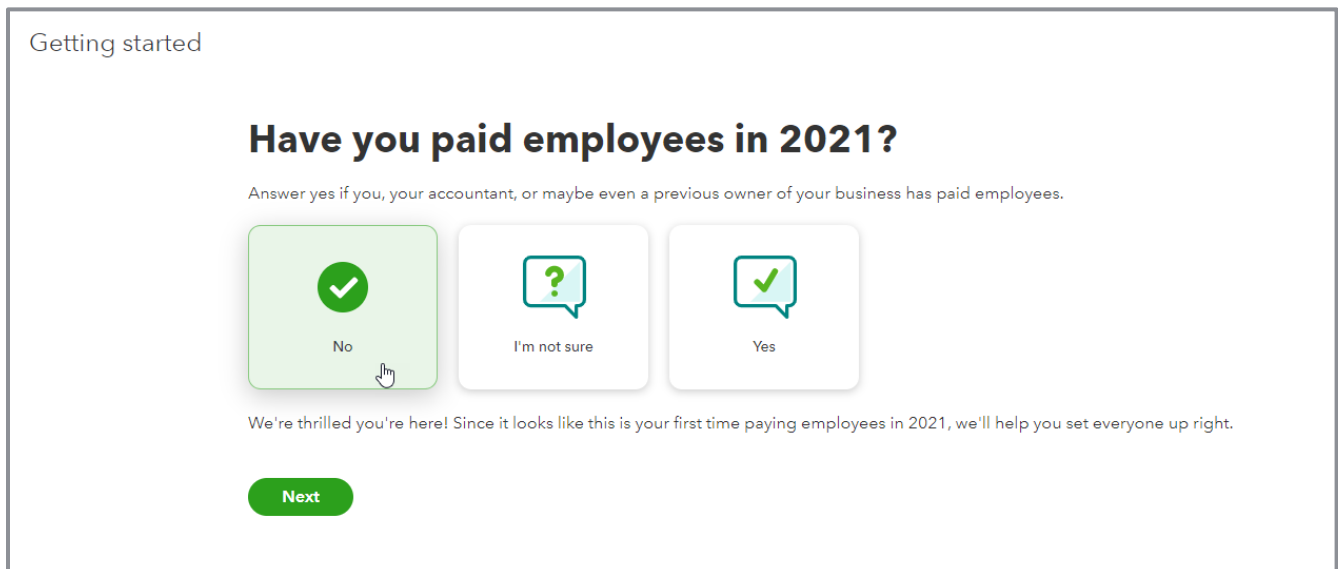

QuickBooks Online 2021 Client Training

27

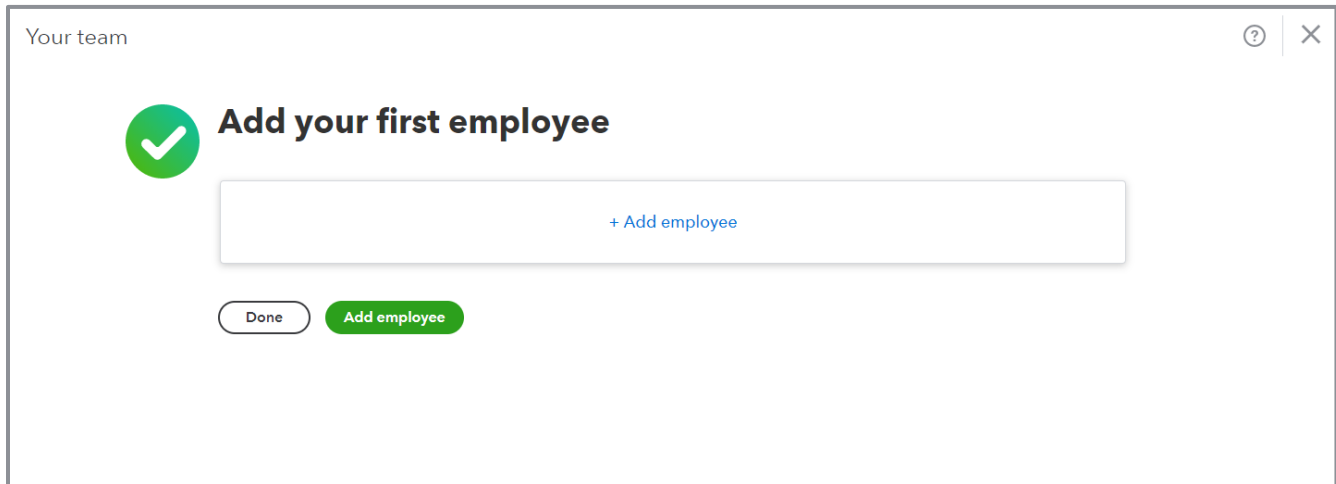

7. You'll see a welcome page for payroll; select **Get started**.

8. You'll be asked several questions, such as if you've already paid employees in this calendar year. Answer and select **Next** after each question.

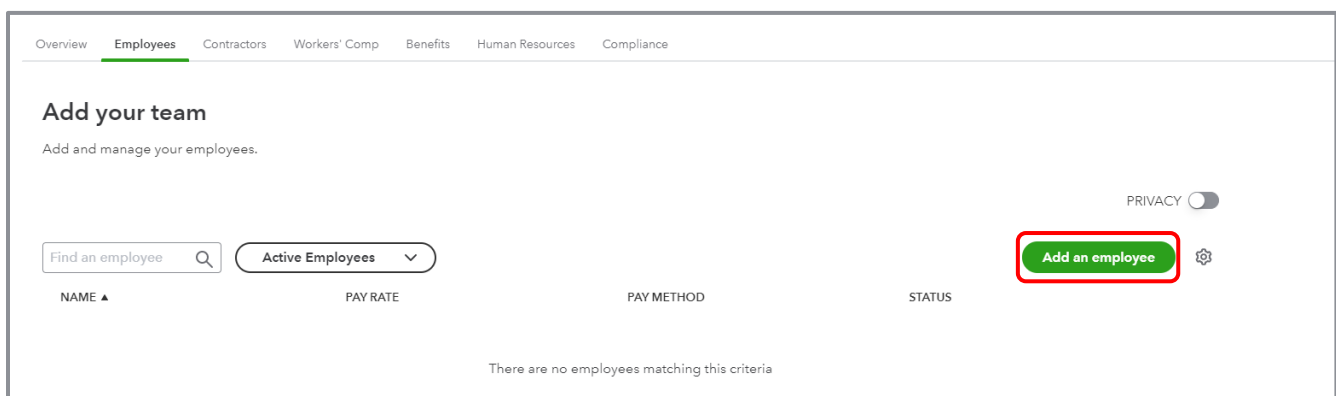

- After answering the questions, you'll be prompted to start adding employees. You can start adding them directly from this screen, or you can close it and add employees later as described in the next exercise.

## Step by Step: Add Employee to QuickBooks Online Payroll

- Open a live QuickBooks Online company; this will not work in the test drive file.
- Navigate to the Employee Center by clicking **Payroll** in the left navigation bar, then click **Employees**.
- Click **Add an Employee**.

Fill out the information to add an employee: personal info, W-4 info, pay schedule, type and amount of pay, deductions, how they get paid, and date of birth.

4. Click **Done**. Notice the new employee has been added to the Employee list. If you wish, you can add the employee to Workforce where he/she can access their pay stubs and tax information.

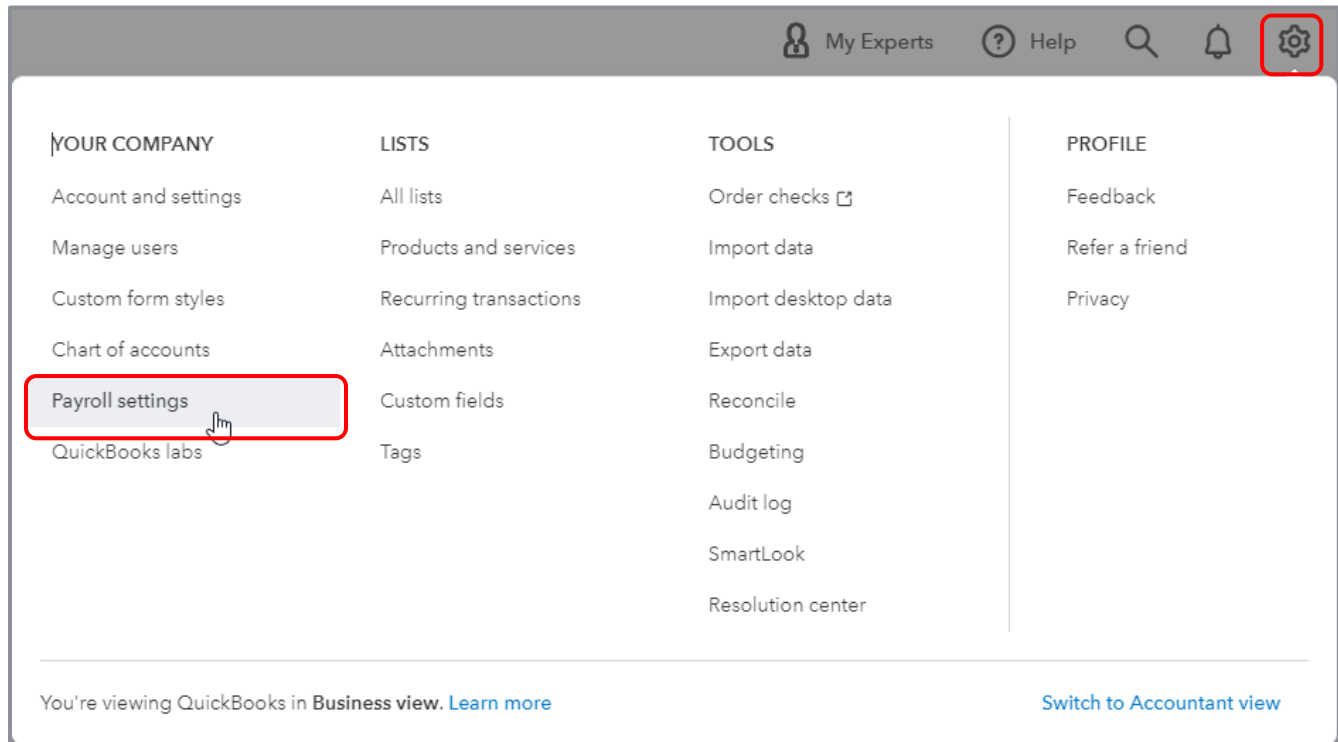

NAME ▲	PAY RATE	PAY METHOD	STATUS
Jones, Mark	\$52,000.00/year	Check	Active

## Step by Step: Configure Payroll Settings for QuickBooks Online Payroll

1. To practice configuring payroll settings, open a live QuickBooks Online company; this will not work in the test drive file. (These instructions are for companies using Premium Payroll.)
2. Click the **gear icon** on the top right and select **Payroll Settings**.

3. Click the **pencil icon** in the Accounting section.

The screenshot shows the 'Payroll Settings' dialog box with the following sections and options:

- General tax**: Company type, filing name, and filing address
- Federal tax**: Federal EIN, deposit schedule, and filing requirement
- California tax**: State EIN, deposit schedule, and state unemployment insurance rate
- Taxes and forms**: Automate taxes and forms (On)
- Federal form preferences**: Third party designee and paid preparer info
- Email notifications**:
  - Send to: esther.us@e-compubooks.com
  - Setup notifications: Send to you
  - Form filing notifications: Send to you
  - Payday notifications: Send to you
  - Tax notifications: Send to you
  - Payday reminders: Send to you
  - Tax payment reminders: Send to you
- Shared data**: Allow employees to import W-2 data into TurboTax (On)
- Bank accounts**: Account number, Routing number
- Printing**: Paychecks (Print on plain paper)
- Accounting**: Choose how payroll transactions are exported

A red box highlights the 'Accounting' section name, and another red box highlights the pencil icon for the Accounting section. A green 'Done' button is located at the bottom right of the dialog box.

4. Click the **pencil icon** in any section you wish to alter (in this case, we wish to alter the **Paycheck and payroll tax payments**).

The screenshot shows the 'Accounting preferences' window with the 'Review' tab selected. The window title is 'Accounting preferences' and the subtitle is 'Accounting preferences - Review'. The main content area is a table with two columns: 'FROM PAYROLL' and 'TO CHART OF ACCOUNTS'. The first row, 'Paycheck and payroll tax payments', is highlighted with a red box. Below this are sections for 'Bank Account', 'Wage expenses', 'Employer tax expenses', and 'Tax liabilities', each with a pencil icon for editing. At the bottom, there is a 'Want to update existing transactions' section with a pencil icon and a 'Done' button.

FROM PAYROLL	TO CHART OF ACCOUNTS
Paycheck and payroll tax payments	
Bank Account	Cash in bank - operating
<b>Wage expenses</b>	
Wage Account	Payroll Expenses:Wages
<b>Employer tax expenses</b>	
Tax Account	Payroll Expenses:Taxes
<b>Tax liabilities</b>	
Federal Taxes (941/944)	Payroll Liabilities:Federal Taxes (941/944)
Federal Unemployment (940)	Payroll Liabilities:Federal Unemployment (940)
CA PIT / SDI	Payroll Liabilities:CA PIT / SDI
CA SUI / ETT	Payroll Liabilities:CA SUI / ETT

Want to update existing transactions  
Update accounting preferences for past transactions according to current preference settings (we'll change all accounts except the one in the Bank Account section).

5. Click **Next**.
6. For Bank Account, select the **Checking** or **Operating** account.
7. Click **Continue**.

The screenshot shows the 'Accounting preferences' window with the 'Bank information' tab selected. The window title is 'Accounting preferences' and the subtitle is 'Bank information'. The main content area is a form with a question: 'Which QuickBooks checking account do you use to pay your employees' paychecks and payroll tax payments?'. Below the question is a dropdown menu labeled 'Bank account' with the selected value 'Cash in bank - operating [5383,184.59]'. The dropdown menu is highlighted with a red box. At the bottom, there is a 'Continue' button highlighted with a red box.

Which QuickBooks checking account do you use to pay your employees' paychecks and payroll tax payments?

Bank account: Cash in bank - operating [5383,184.59]

8. Click **Done** → **Done** again.
9. Review other company payroll settings.

Now, assume we’ve run one paycheck for this employee so we can populate the various payroll reports.

**Paycheck #1111** ?

PAY TO **Mark Jones** NET PAY **\$788.69**

**Pay your team from your mobile phone**

- Create accurate paychecks for employees
- Electronically pay taxes and file forms in all 50 states
- Get automatic reminders for payday and tax deadlines
- View past paychecks and employee details

[Download on the App Store](#) [GET IT ON Google Play](#)

This app supports all QuickBooks Online Payroll products. It does not support QuickBooks Online Payroll desktop versions.

## Topic 3: Intuit App Center

### TOPIC OBJECTIVES

- Recognize the benefits of Intuit approved add-ons
- Identify steps to find, purchase and access QuickBooks Online add-ons

### BENEFITS OF INTUIT APPROVED ADD-ONS

While QuickBooks Online focuses on tackling core accounting tasks, there are many other related business management tasks for small businesses addressed by other apps that integrate with QuickBooks Online. The cloud offers an unparalleled opportunity to connect to these applications so data is shared. Instead of re-entering data, which creates unnecessary work and the potential for errors, data flows seamlessly across applications.

QuickBooks Online connects to third-party apps through the Intuit Partner Platform. QuickBooks Online is an open platform, allowing third-party developers to build integrations. Developers must meet strict requirements to be eligible for listing in the App Center.

### Features Available with Intuit Approved Apps

- Apps customize QuickBooks Online to further fit specific business needs
- Apps are mobile and web-based for anytime, anywhere access
- Data entered in an invoicing app can use QuickBooks Online data such as customers, jobs and product/service items outside of QuickBooks Online and send invoices to QuickBooks Online, without the need for duplicate work or the potential for error
- QuickBooks Online can be updated automatically without exposing company information. For example, time-tracking entries entered by staff and contractors outside of QuickBooks Online are updated in QuickBooks Online without giving them access to QuickBooks Online accounts.
- Import to QuickBooks only when necessary. An app can handle an important job, but won't clutter up QuickBooks with unnecessary information. For example, an app captures requests from a company's website and tracks them as sales leads. Only when a lead is converted to an actual customer does the app automatically add them to the company's QuickBooks Online Customer list.

- Separation of duties - Many apps can have separate logins that don't allow users access to sensitive financial data stored in QuickBooks Online
- Apps are created by Intuit and independent developers; Intuit reviews and approves each app to ensure it meets exacting quality and security standards
- Only apps that are authorized can access the QuickBooks Online data
- Intuit's security review team makes sure apps use and protect data properly. Also, the app's connection to QuickBooks Online can be turned off or on as needed.

### Select the Right App for Your Problem

First, figure out where you are getting bogged down. You'll find QuickBooks apps designed for many different business types and tasks.

---

### Sign up for free app trials - no credit card needed

Sign up for free app trials using your QuickBooks log-in. If you decide to subscribe to an app, the developer will bill you directly.

---

### No Double Data Entry

Apps will request only relevant data (customers, jobs or items) from your QuickBooks to complete a task and will only send the approved transactions back into QuickBooks (time entries or payments).

## FIND, PURCHASE AND ACCESS QUICKBOOKS ONLINE ADD-ONS

### Step by Step: Find and Explore the QuickBooks Online App Center

1. Open your QuickBooks Online account; this will not work in the test drive file.
2. From the left navigation bar, select **Apps**.

You will see two tabs at the top: Find Apps (which displays all apps in the Intuit App Center) and My Apps (which displays all apps currently linked to this company).

Click the **Find apps** tab to get a complete listing of apps in the Intuit App Center for QuickBooks Online in the United States. You can search by name or browse by category.

3. Click on any app to view more information.
4. Many of the apps accessed in the Intuit App Center from a live account can be tried for free by clicking the app then clicking **Get App Now** (if it's visible).
5. The Intuit App Center may also be accessed without a subscription to a live QuickBooks Online company by going to [apps.com](https://apps.com). Make sure to choose the correct country flag in the top right. You can click **View all apps**, find specific apps by browsing by category, or search by an app's name in the top right corner next to the country flag.

## Features of Some Apps

- **WORKetc** – This is an all-in-one social CRM, projects, quotes and billing platform to keep everyone on the same page and always up-to-date using a web browser, mobile device or tablet

### ENTERPRISE SOFTWARE FEATURES. SMALL BUSINESS PRICE

**Workflow Solutions**

- Permissions and access control.

**Power Features**

- Custom web form builder.
- Email marketing & newsletters.
- Open API for custom development.
- Powerful custom fields & data types
- Twitter, LinkedIn & Facebook Integration

- **Dext Prepare** - This app uses OCR technology and syncs data from your receipts, bills and other documents with QuickBooks Online. This eliminates manual data entry for these areas. Your data is stored safely (and found easily) on Dext’s cloud servers for a minimum of 10 years in case of audit, natural disaster or fraud.

<p><b>Snap it</b> </p> <p>Use your phone to snap and extract all the important data, and then scrap the physical copy. Simple and paperless!</p>	<p><b>Send it</b> </p> <p>Upload bills, receipts, invoices and bank statements on-the-go from your phone, laptop or email account, before connect your accounting software via our seamless integration.</p>	<p><b>Sorted</b> </p> <p>The time you’d usually spend on your financial admin? You’ve just won it back. Now you’re free to focus on what really matters – like growing your business.</p>
---	---	--

## No more manual data entry

Instead of manually copying each line of your receipts, bills, invoices or bank statements into your accounting software, Dext Prepare analyses and extracts the important information so you don't have to.

### Effortlessly update

Paper receipts and invoices are messy and often don't follow a standard layout. Dext Prepare goes beyond simply converting documents into digital text – one quick photo and the app intelligently analyses, understands and organises the data for you.

- Method:CRM** - Method’s customizable no-code platform makes it easy to develop a CRM (customer relationship management) solution or app that is perfect for your unique business. Use activities to track emails and phone calls. The two-way real-time sync consolidates customer history and accounting data, giving everyone a 360-degree view of every customer.

The screenshot shows the Method:CRM website. At the top, there is a navigation bar with the 'method' logo, links for 'Features', 'Industries', 'Pricing', 'Demo', 'Resources', and 'Sign in', and a 'Try for free' button. The main content area features the headline 'The best QuickBooks CRM on the market' and a sub-headline 'Combine Method:CRM's powerful QuickBooks sync and customizable platform for a solution that's perfect for each of your unique business needs.' Below this is another 'Try for free' button and the text 'Full access with unlimited users. 30-day free trial.' To the right, a diagram illustrates the integration between 'Intuit QuickBooks' and 'method:CRM'. The diagram shows 'Intuit QuickBooks' in a green box and 'method:CRM' in a white box, connected by two blue curved arrows indicating two-way sync. Surrounding these central boxes are several feature boxes: 'Lists', 'Time Tracking', 'Sales Transactions', 'Vendor Transactions', 'Contacts', and 'Payment'.

When it comes to syncing with QuickBooks, we did it first — and we still do it best.

**Industry-leading integration**

Method:CRM is the #1 CRM on Intuit's apps.com, with over 1,100 five-star reviews from QuickBooks users and ProAdvisors.

**Two-way, real-time sync**

Our patented integration instantly syncs customers, invoices, payments, and more between Method:CRM and QuickBooks.

**Works with all versions of QuickBooks**

Yes, even desktop versions! Method:CRM empowers you to run your business from anywhere, on any device.
