Solid Waste Collection Guidelines

- **Service Time:** Please have your waste at the curb no later than 7:00 am to ensure collection.
- **Placement:** Place waste in cans, bags, or bundles weighing no more than 50 pounds. Separate your waste from recycle so crews can detect what is intended for each.
- **Containers:** If using garbage cans, use containers between 20 and 96 gallons. Please, no barrels or drums. Waste may also be placed in bags weighing no more than 50 pounds.
- **Freon:** Per Federal law, items containing Freon must be completely drained and have an accompanying ticket verifying Freon has been drained.
- **Large Glass:** Items such as glass tabletops, shower doors/walls, and entry doors are acceptable up to 5' in length. They must be broken and placed in a box that is secured and marked BROKEN GLASS, or covered vertically and horizontally with duct tape to prevent broken glass from shattering when loaded into the truck.
