ABS VS. FULL OWNERSHIP

With a share boat you are getting a fully managed boat for a fraction of the financial outlay. Why ABS?

- You are able to buy into a more expensive boat, for your capital outlay.
- Boat is fully maintained & managed for you.
- Boats are walk on walk off.
- You have the opportunity to have a boat in more than one location.
- Your investment is kept in a higher standard of condition giving you better resale when boat is sold.
- You are sharing the ongoing costs with other shareholders. Unless you are going to use your boat every week then ABS is the way to go boating, just knowing that when it's time for you to use your boat, everything will be working.

FOUR WINNS 248

Only 2 shares remaining in this 4 share boat.
