Shipping / Order Process

The process is simple. Just fill out the attached **order info sheet** completely and send it to us with **your tail light(s)**, and **your online payment receipt** showing the services you have ordered. You can either remove the unit from your vehicle yourself or have your mechanic or body shop do it for you.

Shipping your unit to us is your responsibility. The cost will depend upon which shipper you decide to use and how you package your unit. You can either pack it in a box slightly larger than it or you can just bring it to your local post office, UPS store, FedEx store, etc. and have them pack it for you. **Make sure there is plenty of padding around the tail light assembly.**

We will repair your unit and ship it back to you promptly. We generally ship it out within 24 hours of receiving it (business days). We are happy to accommodate rush orders as best we can if you need Next Day Shipping.

Feel free to contact us any time with questions and we will be happy to help you through the process.

Thank you!
