

Bring It On

Verse 1

The cards are stacked against you
And you're lying in the ruff
You think life is out to get you
And you think you've had enough
Just remember these three words
Together or alone
Bring it on
Bring it on
Bring it on

Chorus

Friend or foe let them know
You're in it for the fight
If you take a blow but don't let it show
Then lead with your right
Stand before your giant
With a sling and a stone
Bring it on
Bring it on
Bring it on

Verse 2

Painted in a corner
Up against the ropes
You think that you're a goner
Without a ray of hope
Set your sights, give all your might
Work it to the bone
Bring it on
Bring it on
Bring it on

Bridge

Life is where you take it with
Jumps from day to day
Over happenstance and circumstance and
Bumps along the way
It's yours if you take it
Pull your sword from the stone
Bring it on
Bring it on
Bring it on

Solo - Chorus

Verse 3

Turn your lemons into lemonade
He turned water into wine
You've got it made, don't be afraid
To cross that finish line
In the blink of an eye, you'll touch the sky
High upon your throne
Bring it on
Bring it on
Bring it on

Chorus

Friend or foe let them know
You're in it for the fight
If you take a blow but don't let it show
Then lead with your right
Stand before your giant
With a sling and a stone
Bring it on
Bring it on
Bring it on

End

Stand before your giant
With a sling and a stone
Bring it on
Bring it on
Bring it on
