

Wishes Do Come True

Music and Lyrics by Joel Hill

Verse 1

Had I known right from the start that destiny prevails
Had I known what feelings reveal
I never knew you could steal a heart except in fairy tales
I never knew that love was real

Chorus

I'd close my eyes and hold my breath and say a little prayer
That maybe one-day, we'd have a life that we could share
I don't know where my wishes go when I wish upon a star
But so far, my wishes do come true

Verse 2

I've never told my love through poetry or words that rhyme
Through prose or lyric lines
But I never knew you could share a thought and set it free
I never knew that love was meant to be

Chorus

I'd close my eyes and hold my breath and say a little prayer
That maybe one-day, we'd have a life to share
I don't know where my wishes go when I wish upon a star
But here we are, so wishes do come true

Solo Verse

Bridge

Beholden to fate or predestination
It just feels like we've been here before
A leap of faith that happens in slow motion
For a love that's for evermore
A love for evermore

Verse 3

And now I see that love can grow though tested through the years
Tested by our fears and careers
Now I believe in fairy tales and wishes do come true
And after all these years, I'm so in love with you
I'm so in love with you
