She is Vice-President of the First Spiritualist Church of Willimantic, and a Trustee for Pine Grove Spiritualist Camp and the Connecticut State Spiritualist Association. Jean teaches mediumship development throughout New England and has actively studied spirituality for 28 years. She has been a guest on “Adventures with the Paranormal” at TV station 9 in Seekonk, MA, “Dream Visions 7” radio, and “Renew your Spirit Conversations”, where she discussed the continuity of life and some of her experiences of working with Spirit. Jean has also worked with the JK Paranormal Investigators in Newport, RI and Niantic, CT and has been a guest on the 30-year show, “Psychic Holistic Spotlight”. Jean had the privilege to be accepted into Mavis Pitilla’s 2020 mentorship program and Paul Jacob’s 2021 mentorship program. In addition to doing readings, Spiritual Response Therapy (SRT) is also a method that Jean uses to research and clear dense negative imprints in spaces. It can also clear programs running in the soul from trauma.

July 9<sup>th</sup> – Temple Service – 7pm

July 10<sup>th</sup> – Inspirational & Automatic Writing – 7pm

If you are interested in developing your mediumship abilities, this is a method that you can catch right on, to deepen your connection to working with Spirit. Spirit has used this method as a means of communication through authors, mediums, and artists. Evidence of automatic & inspirational writing is found in historic literature as well as books being published today. Learn the difference between inspirational & automatic writing and a few simple techniques to help you begin your abilities. We will do a short meditation and open ourselves to inspiration and guidance from those in the spirit realm. No previous experience is necessary. You will leave the workshop with messages from -Spirit.

July 11<sup>th</sup> – Temple Service – 7pm

July 12<sup>th</sup> – Message Circle – 7pm

July 13<sup>th</sup> – Using Shamanic drumming to develop mediumship, healing or psychic skills – 7pm This will be a Shamanic-style drum circle where participants will take turn sitting in the center. While in the center, the person will receive healing. Everyone else who is drumming will use mediumistic skills to give messages from Spirit. Everyone will receive a reading and healing. If you have a drum or rattle, you may bring it. Participants do not need to bring a drum to participate. No experience is necessary.

July 14<sup>th</sup> – Past Life Regression – 7pm

Trance Medium and Healer, Jean Mandeville will lead participants through a series of guided imagery exercises that will release disharmonious energies that no longer serve self, center us and ultimately restore each individual. Jean's spirit guides will then clear everyone's chakras and auric field. Then the class will be led to a divine light and the Akashic Records, which is where all of our soul information/past lifetimes are stored. A record keeper will bring us an excerpt of a life to show us for a particular reason. We can gain an understanding of why we are experiencing something in this life that we have brought forward, whether it is a gift, an illness, or an unresolved lesson. If there is a need for healing, a shamanic soul retrieval will take place. Shamans feel that when we endure a trauma, we lose a piece of the soul, or some of the energy is left as an imprint in the situation. This energy can be retrieved and great healing can take place. When the class returns to our present-day reality, all will have a feeling of peace and well-being.

July 15<sup>th</sup> – Blending with Tree Energy – 10am

Instructor Jean Mandeville will discuss how historic mediums used their time in the forest to develop their connection to Spirit and develop their clairaudience. Participants will learn how to use specific chakras to develop the “claires” and will learn how to blend with trees. Each tree offers something different as do the various parts of a tree. Even the trees have something “to say”. Come join us for an informative and fun workshop and come hug a tree!

July 15<sup>th</sup> – Gallery Readings – 7pm

### **Week Four – Chris DeSerio – 7/23 – 7/29**

Chris DeSerio, MA, CHt, started his journey into actively engaging with the Spirit World as a child, catching glimpses of spirits and beings in mirrors and as a preteen feeling them very regularly around him. Fast forward several years and Chris started studying with a handful of notable mediums, of which the most influential being Audrey Wiley of the Woodlands Sanctuary in Australia. He continued to develop his abilities then as he does to this day, nearly 25 years later, in better connecting not only as a psychic, trance and physical medium, healer, teacher/tutor of all that he does and knows for those of all experience levels, paranormal expert, and hypnotherapist, but in how to better empower himself and his clients regardless of circumstance. Chris' goal in working with anybody is for them to take away greater awareness and embrace their ability to move forward and develop their inner selves with passion and love successfully.

July 23rd – Temple Service – 7pm

July 24<sup>th</sup> – Psychic Readings with Ribbons - 7pm

Adding more of a fun factor to any psychic reading can allow for the energy to flow more smoothly, which means more clear information for you as the giver (psychic) and the person for whom you're reading. Beyond that, it's dynamic, engaging, and surprising what you can achieve whether you've already taken a course and have done readings or are totally new to it.

This class will have you practice using ribbons in order to provide information and guidance for the person across from you via your psychic senses (and yes, we all have them and can do phenomenal things with just a little bit of effort). Again, no prior experience in psychic development is necessary to participate.

July 25<sup>th</sup> – Temple Service – 7pm

July 26<sup>th</sup> – Message Circle – 7pm

July 27<sup>th</sup> – Let's Hear What the Animals Have to Share – 7pm

Your animal companions offer you their unique sense of love, joy, and fun. So in the moment and clear in their personalities and desires, they make great teachers in simply being themselves and your being able to share in

their experiences. Our animal companions, be they still with you or in the Spirit World, have so much more to share than on the face of things. Further still, the animals who cross your path or you come across in nature have a rich history coupled with their own guidance and messages too.

The focus of this class:

- Connecting at a Psychic Level with Animals Still Here
- How To Purposefully Establish Conversation with Animals In the Spirit World
- Greater Awareness and Receptivity To Signs From Your Departed Animals
- Recognizing and Applying the Lessons of Your Animal Companions In Your Own Life
- Understanding When Animals In Nature are Messengers and How To Listen

No experience is necessary in psychic development, mediumship, or animal communication to participate. And if you like, you're welcome to bring along photos of animal companions here and in Spirit for some of the exercises.

July 28<sup>th</sup> – Spirit Messages with Fork and Spoon Bending – 7pm

Many of you have had the experience and subsequent joy of having loved ones, spirit guides and others touch in through your psychic senses or those of another medium, providing evidence of survival and messages of hope and healing. This seance doesn't look to take away from this significance but add to it in experiencing the Spirit World through your regular senses. Lights appearing and disappearing, temperature changes, being touched, hearing sounds, and seeing Chris' face change are just a few of the possibilities of Spirit manifesting in this very special gathering whilst various spirit guides and friends will touch in and share their thoughts, philosophy, or simply to say hello through the use of his voice throughout the course of this gathering with Spirit, The seance will kick off learning and practicing spoon and fork bending so as to raise the vibration and have your own keepsake from this very special evening.

Please note that some time may be spent in more dimly lit conditions.

July 29<sup>th</sup> – Table-Tipping and Other Things Physical – 4pm

Table-tipping is perhaps still the most known and popular form of physical mediumship, second to the Ouija board, but minus all the negativity associated there- with. Physical mediumship allows viewers and participants to experience the Spirit World firsthand through your regular 5

senses rather than having details and messages relayed to you secondhand through a medium. This class will:

- Explain the Different Forms of Table-Tipping
- Go Over the Logistics of Opening, Running, and Closing a Table-Tipping Session
- Demonstrate and Have You Participate in a Table-Tipping Session
- Discuss and Show You Other Tools of Physical Mediumship
- Explain How the Ouija Board Went Wrong While the Table Stayed a Reliable Instrument for Welcome Spirit Contact

We will have an Open Q&A Format throughout
