

POWERLIFT

Independence at the touch of a button.

The power to be in control.

La-Z-Boy PowerLift Recliners combine comfort and independence for you and your loved ones. Sit, recline and stand up with a smooth, secure motion at the touch of a button. Now available in four distinct series to suit your needs, and your budget.

BRONZE

The Bronze Series features power lift, power recline, battery backup and a 300-pound lift capacity.

SILVER

The Silver Series features power lift, power recline, battery backup and a 325-pound lift capacity.

GOLD

With all the features of the Silver Series, the Gold Series also comes with heat and massage options, and a covered lift base with a 500-pound lift capacity.

PLATINUM

Our top-of-the-line lift chair, the Platinum Series offers a covered lift base, heat and massage options, power headrest and lumbar, independent back and legrest positions, a zero-gravity position and a 350-pound lift capacity.

L A  B O Y[®]

Live life Comfortably.®

Easy to use with convenient features.

While narrowing down your specific needs for a PowerLift chair, we encourage you to use this checklist as a side-by-side comparison for features that will truly make the difference in your reclining comfort.

| WALL PROXIMITY | 2 inches | 5 inches | 13.5 inches | 11 inches |
| LIFT CAPACITY | 300 lb | 325 lb | 500 lb | 350 lb |

*Heat and massage features optional on PowerLift Platinum.

**Optional power headrest and lumbar available on PowerLift Platinum.

Battery Backup

Battery backup feature allows you to return the chair to its original seated position in the event of a power outage.

Legrest Safety Feature

Legrest safety feature can sense if an object is obstructing the path of the legrest as the chair is closing, and disables the legrest from automatically closing.

Massage and Heat

Massage or heat options let you choose a soothing massage with three speed settings, and relaxing heat, in the lower back and seat.

Covered Lift Base

Covered lift base provides quiet operation, and keeps mechanisms safely hidden from interference.

Zero-Gravity

The zero-gravity position lets you recline with your lower legs placed above heart level, reducing pressure on the spine while promoting leg circulation that can help reduce swelling.

Power-Tilt Headrest and Lumbar

The adjustable headrest allows for optimal head and neck position for watching TV, reading or conversation. Use the power lumbar feature to customize your lower back support—ideal for relieving lower back fatigue and stiffness.

3 Year warranty on lift mechanism & motor, limited lifetime wood warranty. To learn more visit la-z-boy.com/support/warranty
