

Livestock Processing Information

Thank you for using The Steel Buffalo Butchery as your Livestock Processor!

Please review the following information & policies that will be in place for 2024.

- Please remember that drop off is between **8am-9am** the morning of your scheduled date. We cannot hold animals overnight.
- All forms must be completed at the time of drop off and filled out in your name. If you are a farmer selling halves and wholes to your customers, please do not put your customers' name on the cut sheet. ***This is a USDA regulation that every animal has to be traced back to the farmer.***
- **The owner of the animal is responsible for signing all forms, payment, & pickup of the order.** A cutsheet is due at the time of drop off. If a cut sheet is not completed at the time of drop off, we will breakdown the animal using our standard cuts. This will include the most popular choices of Steaks and Roast including ground. No specialty items. At drop off, we have staff available to review your cut sheets and ask any questions that you may have. Since we are a small family owned and operated facility, we do not have a staff that can handle the amount of calls & emails to track down a missing cut sheet. Our staff is dedicated to ensuring proper handling of your animal from slaughter, packaging, & storage of your meat. **We ask for your cooperation in this area.**
- **We have a standard cut sheet to allow us to handle the volume of animals that we process. Any items that are written in for specialty cuts are up to the discretion of the butchers and will be charged at a rate of \$2.00lb. Please make sure to convey that to your customers. If you have any questions regarding our cut sheets or process, please call us and we can walk you through so that you can educate your customers.**
