Sacmi Group - Customer Service

The Sacmi network provides after-sales service through both its production plants in Imola and its worldwide service centres. Our technical assistance services also include diagnostics, provided all over the world via the Teleservice monitoring service that is offered as an option on machinery purchased.

Il network Sacmi copre i servizi di post vendita sia tramite le sedi produttive locate in Imola, che tramite i centri di assistenza presenti in tutto il mondo. I servizi di assistenza tecnica possono operare azioni diagnostiche in tutto il mondo grazie al sistema di supervisione Teleservice, proposto come opzionale delle macchine.

La red Sacmi cubre los servicios de post venta ya sea mediante las sedes productivas localizadas en Imola, o mediante los centros de asistencia presentes en todo el mundo. Los servicios de asistencia tecnica pueden realizar diagnosticos en todo el mundo gracias al sistema de supervision Teleservice, propuesto como un opcional en las maquinas.

Le reseau Sacmi couvre les services apres-vente tant aupres des sieges d'exploitation situes a Imola qu'avec des centres d'assistance apres-vente presents dans le monde. Les services d'assistance technique peuvent faire des diagnostics dans le monde entier grace au systeme de supervision Teleservice, propose en option avec les machines.
