EDGE Air Power Hand Dryers

Air Power F1

Hand drying in 6 to 8 seconds. The only hand dryer certified with Microban antimicrobial technology.

12 Blades of air strategically placed, with water collection as standard. The Air Power F1 is available in White and Black and is fully compatible with our AirScreen (Page 16) – a neutralising screen that removes bad odours and leaves a pleasant fragrance in the washroom.

Microban antimicrobial protection is impregnated at the manufacturing stage, to inhibit growth of bacteria, mould and mildew. **Microban** treated products are tested for their efficiency in accordance with internationally recognised standards..

MICROBAN[®]
ANTIMICROBIAL TECHNOLOGY

EDGE Air Power Hand Dryers

Air Guard

The antibacterial hand dryer backboard.

Air Guard is a lightweight antibacterial backboard that protects walls and assists with reducing the spread of bacteria, maintaining a cleaner and safer washroom environment for users. It also covers old holes in the wall

Air Guard antibacterial additive prevents bacteria surviving. Our formulation is proven to kill 99.9% of almost all species of bacteria including CDIFF, MRSA, E.Coli, Listeria and Klebsiella, and reduces risk of infection. Air Guard is compatible with all of our hand dryers and continues to work for up to 10 years. It is also moisture resistant, non staining and flame retardant.

Approved by:

- FDA (Food and Drug Administration)
- HSE (Health and Safety Executive)
- EPA (Environmental Protection Agency)
- BPR (Biocidal Products Regulation)

Product codes:

- Air Guard - Large - White** : **E306321**
