Top: Smooth Fiberglass, Provence™ Zinc Center Arch Door with Full Lite Sidelites

Above: Smooth Fiberglass, Cross Reed 4-Lite Metro™ Door

FEATURES & BENEFITS

BEAUTY, FUNCTIONALITY, SECURITY, AND ENERGY EFFICIENCY

A Environmentally friendly CFC-free polyurethane foam core provides insulation.

E High-definition panel embossments provide elegant curb appeal.

B 16" lock block to support entry door hardware.

F Unique, textured woodgrain detail in every design replicates the true look of a real wood door.

C Unfinished pvc jamb, full non-rot protection.

G High performance lite-frame resists discoloration and warping.

D Composite adjustable threshold and door sweep limit air and water infiltration.

H LVL stiles with composite stiles/rails.

Molded doorlite openings minimize landfill waste, reinforce door structure and doorlite support and protect against moisture.

ENHANCED APPEARANCE

Matching came, sill and hinge finish

ZINC
Ball bearing hinges reduce door sag and hinge wear.

ZINC **PATINA**
Composite anodized sill resists deterioration.

ZINC **PATINA**
Triple-pane decorative glass provides superior insulation.

FEATURES & BENEFITS

Designed to Meet Impact Requirements for "HVHZ" areas in Florida

Available Configurations

Standard Paint Options (See Page 10)

High Performance Door & Frame System

- Integrated Door, Frame, and Glass for Superior Performance
- Reinforced Fiberglass Door Skin
- Dual-Fastening Snap-Fit Frame Design
- Safety Laminated Glass Interior/
Safety Tempered Exterior
—Interior: 1/8" x .090PVB x 1/8"

Flush Glaze Frame

Mahogany Lip Lite Frame

Durability

- Fiberglass door panels won't dent, rust, rot or crack
- Ball bearing hinge prevents door sag and hinge wear for smooth operation
- PVC jambs will not rot or absorb moisture

Performance

- High-performance, dual-fastening snap-fit lite frame—Premium DP and Impact performance
- Flush glaze design—Optimal design and structural performance
- Triple-pane decorative glass with safety laminated interior—energy-efficient and Impact resistant
- 100% CFC-free polyurethane foam core—Energy-efficient insulation and environmentally friendly
- PVC jamb system with composite hi-dam bumper sill helps prevent jamb rot and water damage*

Design

- True resemblance of a real wood door
Woodgrain: Unique detail in every design
Smooth: Crisp design and paintable to match any décor
- Lite frame and stile alignment—Architecturally correct design
- Matching glass coming, sill & hinge finish provides enhanced look and appearance
- High-definition panel embossments give elegant curb appeal

*Maximum protection is achieved only when the door system is installed and caulked properly.

FLORIDA BUILDING CODE TESTING INFORMATION

ENERGY RATINGS INFORMATION

✗ Will not qualify under ENERGY STAR guidelines.

6/8 FLUSH-GLAZED SMOOTH STYLE FIBERGLASS PATIO DOORS				3/4 Lite ≤ 1100 sq in		Full Lite > 1100 sq in	
TYPE	SWING	GLAZING	U-factor	SHGC	U-factor	SHGC	
Fiberglass Door	Inswing & Outswing	Dual Pane—Low E-270 (Clear/Internal Grille)	0.24	0.11	0.26	0.15	
		Dual Pane—Low E (Mini Blind UP)	0.29	0.14	0.32 ✗	0.18 ✗	
		Dual Pane—Low E (Mini Blind DOWN)	0.25	0.07	0.28	0.09	
		Dual Pane—Laminated Low E Impact Glass	N/A	N/A	0.26	0.23	
		Dual Pane—Laminated Low E Impact (Mini Blind UP)	N/A	N/A	0.31 ✗	0.17 ✗	
		Dual Pane—Laminated Low E Impact (Mini Blind DOWN)	N/A	N/A	0.28	0.09	

ROUGH OPENING CHART

	NOMINAL DOOR WIDTH	NOMINAL DOOR HEIGHT	PREHUNG UNIT SIZE	ROUGH OPENING	BRICKMOLD OPENING
	36"	6/8	36-1/4" x 79-1/2"	37" x 80"	38-3/4" x 80-3/4"
	30"	6/8	30-1/4" x 79-1/2"	31" x 80"	32-3/4" x 80-3/4"
FRENCH SWING					
	72" (36-36)	6/8	71-1/2" x 79-1/2"	72-1/4" x 80"	74" x 80-3/4"
	60" (30-30)	6/8	59-1/2" x 79-1/2"	60-1/4" x 80"	62" x 80-3/4"

OUTSWING UNITS: Come standard with a bumper-style sill, which requires that you subtract 1-1/8" from the prehung unit and rough opening height. Also add 1/2" to brickmold opening for width.

THRESHOLD: Inswing Units—threshold height is 1-3/8", which allows for approx. 1" opening clearance. If a spacer is needed under sill to allow for proper opening clearance, please adjust rough opening accordingly.

 **HVHZ:** Rough openings for HVHZ are smaller than chart rough opening sizes. Maximum space between actual unit size and rough opening is 1/2" in width and 1/4" in height.

ENERGY STAR

All Signamark® Fiberglass Doors are energy efficient and designed to stand up to all seasons so your home stays warm during the winter months and cool during the summer. Imagine the savings from a fiberglass door which is up to five times more energy efficient than a traditional wood door.

Most of our doors are ENERGY STAR certified. The chart beginning below and continuing on page 23 shows a listing of the U-Factor and SHGC (Solar Heat Gain Coefficient) for all of our Entry Door Products. Certified units must hit the U-Factor, Solar Heat Gain Coefficient in their climate zone, and air leakage listed in the chart to the right.

Visit energystar.gov for your area's climate zone detail.

Signamark® offers ENERGY STAR certified door models in all 50 states.

Glazing Level	U-Factor ¹	SHGC ²	
Opaque	≤0.17	No Rating	
≤1/2 Lite	≤0.25	≤0.25	
>1/2 Lite	≤0.30	Northern North-Central	≤0.40
		Southern South-Central	≤0.25

Effective: 1/1/2015

Air Leakage for Swinging Doors ≤ 0.5 cfm/ft²
1 Btu/h.ft².°F 2 Fraction of incident solar radiation.

U-Factor: The heat transfer per time per area and per degree of temperature difference. The U-factor multiplied by the interior-exterior temperature difference and by the projected fenestration product area yields the total heat transfer through the fenestration product due to conduction, convection, and long wave infrared radiation. Expressed here in units of Btu/h.ft².°F.

Solar Heat Gain Coefficient (SHGC): The ratio of the solar heat gain entering the space through the fenestration product to the incident solar radiation. Expressed as a value between 0 and 1.

Air Leakage (AL): Measures the rate at which air passes through joints in the window. AL is measured in cubic feet of air passing through one square foot of window area per minute. The lower the AL value, the less air leakage. Most industry standards and building codes require an AL of 0.3 cf-m/ft².

ENERGY RATINGS INFORMATION – PVC JAMBS

In some years the government has offered a federal tax credit for energy efficient products that meet or exceed ENERGY STAR performance levels for doors. Please visit irs.gov and energystar.gov for additional information regarding tax credit availability or visit signamark.com for additional information regarding energy efficiency. PVC jamb ratings are shown in the Energy Ratings Chart below.

NFRC Size Designation	SIGNAMARK Door Description
1/4 Lite ≤ 410 sq in	Fanlite, Craftsman (Mahogany), Craftsman Rectangle, Craftsman Arch, Center Arch, 3/4 Oval (Smooth), Metro (3-Lite, 3-Lite Mix, 4-Lite, 5-Lite), Modern 3-Lite

DOORS WITH SIDELITE(S): Rough opening sizes shown are for a standard continuous head and sill setup with unfinished PVC jamb.

OUTSWING UNITS: Come standard with a bumper-style sill, which requires that you subtract 1-1/8" from the prehung unit and rough opening height. Also add 1/2" to brickmold opening for width.

THRESHOLD: Inswing Units—threshold height is 1-3/8", which allows for approx. 1" opening clearance. If a spacer is needed under sill to allow for proper opening clearance, please adjust rough opening accordingly.

 **HVHZ:** Rough openings for HVHZ are smaller than chart rough opening sizes. Maximum space between actual unit size and rough opening is 1/2" in width and 1/4" in height.

TRANSOMS

Heights 12" & 14-³/₄" unless otherwise noted

 12" height only

Widths listed next to configuration

CLEAR LOW-E TRANSOMS

PRIVACY GLASS TRANSOMS

To calculate heights for combined doors and transoms, add the transom height to the chart height at left.

LIMITED LIFETIME WARRANTY

For Purchases Made On or After August 1, 2018

Signamark fiberglass exterior entry and patio door systems, door slabs and other components (hereinafter Product) by Trinity Glass International, Inc. (hereinafter Trinity) are warranted to be free from defects in material and workmanship that would render the Product unfit for its intended use under normal conditions, subject to the conditions and restrictions contained herein. This warranty extends only to the original purchaser of the Product (hereinafter Customer) from Trinity, from the date the Product is first purchased and extending to the following periods:

Limited Lifetime Warranty on all door slabs and sidelite slabs

Limited Lifetime Warranty on PVC jambs, brickmoulds and mullions

Limited Lifetime Warranty on doorlite (glass) frames

10 Years Limited Warranty on insulated glass against seal failure

5 Years Limited Warranty on factory finish (paint and stain)

2 Years Limited Warranty on wood products (i.e. jambs, brickmoulds, mullion) and all other components not specified in this warranty

The following are exceptions that may void the warranty or are not otherwise considered to be defects in material or workmanship:

1. Damage caused by failure to comply with the installation, finishing and maintenance instructions and recommendations by Trinity.
2. Damage caused by improper storage and handling, abuse, abnormal and unreasonable use by the Customer or other parties beyond the control of Trinity, to include but not limited to damages caused during shipping, handling, installation, or any act(s) performed to the Products not in compliance with Trinity's instructions and recommendations.
3. Damage from harsh natural conditions, including but not limited to substantial exposure to sun, salt spray, lightning, windstorms, earthquakes, acts of God, and other severe environmental conditions including but not limited to harsh chemicals or solvents, such as acidic brick washes or stucco leach.
4. Broken or shattered glass, normal wear and tear of components, improper maintenance, improper cleaning, improper caulking, and damage caused by pets or wild animals.
5. Bowing not exceeding 1/4 inch in the plane of the door. This shall be determined by placing a straight edge on the bowed surface of the door and measuring the point of maximum distance between the bottom of the straight edge and the surface of the door, accounting for panels and glazing recesses.
6. For unfinished Products, failure to properly finish all door/sidelite/transom surfaces and/or jamb materials within 2 weeks of installation or 6 months from the date of purchase, whichever is sooner.
7. Natural variations in color or texture of any wood grain surface shall not be considered a defect. When exposed to direct sunlight over long periods of time, discoloration may occur, but this will be within the accepted tolerances contained within 5 Delta E units, calculated in accordance with ASTM E 308-85, ASTM E 805-81 and ASTM D 2244-85, effective on the date the product is manufactured. Non-uniform fading and/or color changes are natural occurrences if the exterior surfaces of the products are not equally exposed to the sun and other environmental conditions.
8. Natural conditions created during the manufacturing process used in making decorative glass panels such as bubbles, streaks and swirls in decorative glass shall not be considered a defect. Irregularity in glass that is not visible from farther than six feet shall not be considered defects.
9. Any damage caused by improper installation of a storm door or the installation of a non-ventilating, full glass storm door shall void this warranty.
10. This warranty applies only to Products installed in owner occupied residential dwellings within the U.S., during the Customer's ownership, and is non-transferable.
11. Repaired or replaced components are warranted on the same terms and only for the remainder of the original warranty period. Color and grain match are not guaranteed. Trinity reserves the right to discontinue or change products or components. If a product or component is not available, Trinity may select and provide a like product or component of equal quality and price.

Warranty Claim Procedures:

In the event of a defect covered under this warranty, Customer shall comply with the following claim procedures:

1. Written warranty claim shall be presented to Trinity.
2. Customer's written claim must include the following information:
 - Nature or adequate description of defect(s).
 - Identification of product including size, design, type, and product number (if available).
 - Date of purchase.
 - Proof of purchase.
3. Upon Trinity's request, Customer must permit Trinity (or its representative) to inspect the claimed defective Product and provide photographs of the defective Product. Trinity shall have 30 days from receipt of Customer's written claim to exercise this option to inspect.

Upon receipt of a valid claim, Trinity shall have the option to either repair the product or provide a replacement product of like kind and design. Further, in lieu of repair or replacement, Trinity reserves the right to refund the Customer's purchase price (not replacement price). **THIS SHALL BE THE CUSTOMER'S SOLE AND EXCLUSIVE REMEDY, AND IN NO EVENT SHALL TRINITY BE RESPONSIBLE FOR LABOR, SHIPPING, FINISHING EXPENSES, REMOVAL OF PRODUCT, INSTALLATION OF REPLACEMENT PRODUCT, OR OTHER INCIDENTAL AND/OR CONSEQUENTIAL CHARGES, COSTS, EXPENSES OR CLAIMS INCURRED BY CUSTOMER.**

If Trinity elects to refund the purchase price, this warranty will be prorated from the date of purchase in the following manner: 0-5 years, 100% of the original purchase price; 6-10 years, prorated at 75% of original purchase price; and 11 years and up, 50% of original purchase price.

Trinity makes no other warranty, including a warranty of merchantability or fitness for a particular purpose, with respect to the product or replacement except to the extent provided herein. Invalidation of any one or more of the provisions of this limited warranty shall in no way affect any of the provisions in this limited warranty which remain in full force and effect. Any and all legal actions for any and every breach of this warranty shall be instituted and maintained in any court of competent jurisdiction in the County of King, State of Washington. Trinity reserves the right to modify the terms and conditions of this warranty without prior notice.

FINISHING INSTRUCTIONS

SIGNAMARK HAND STAINED DOORS: Signamark hand stained doors already come with a polyurethane UV top coat which protects the door during the 5 year finish warranty. It does not require additional topcoats at time of purchase but you will need to apply additional topcoats after 2-5 years as mentioned in the Care and Maintenance section below.

PAINTED FINISH: SMOOTH FIBERGLASS DOORS

SMOOTH FIBERGLASS DOORS: You can use any high quality oil based or latex based exterior paint. Priming the door is not required, but we do recommend a light sanding with 600 grit sandpaper for better paint adhesion. Before applying a paint, wipe the door and doorlite frame with a damp cloth to remove any dirt, oil, or debris. Allow the surface to fully dry before painting. For a pleasing look, we recommend painting with strokes in the directions shown. Apply at least two coats of paint, following the paint manufacturer's recommended instructions along with drying time between coats.

CARE AND MAINTENANCE

We recommend on any hand stained product that you reapply a UV topcoat over the existing topcoat every 2-5 years to protect your beautiful entryway from harsh weathering. We do not recommend stripping the finish. In locations with severe weather exposure, more frequent maintenance may be required. Caulk as well as repaint your doors as soon as deterioration can be detected.
