## SunBee Circle

SunBee Circle is a very special and unique literacy class for children who love the magical world and their parents who do not want them to grow out of it so quickly. The class offers an oral story for children ages 4 and above, and a puppet show for children under 4. Afterwards, children engage in an activity based on the story and some time for unstructured free play. The activity could be art, drama, or even a taste test, but all activities have one aim: to inspire dramatic play and help children find their creative light.

## Brain-Friendly Moves by Daily Calm

Your child will discover their own brilliance and creativity as they enjoy movements and music that enhance the brain. Based on the science of human brain development, daily calm movements build self-confidence, emotional awareness, social skills and overall well-being! Your child will learn and lead both movement and music. Offered in conjunction with DailyCalm.co by Elisabeth Swim, M.A. An experienced yoga and music teacher, Elisabeth authored *Generous Attention for Stressed-Out Parents who Love their Kids* and is the founder of Piano without Tears.
