

From Routine to Rare Conditions, Our Pediatric Surgeons Can Help

Since 1968, Shriners Hospitals for Children® — Cincinnati has been delivering expert, life-changing care to children with burn injuries, plastic surgery needs, and complex wound and skin conditions. The Cincinnati Shriners Hospital is a top destination for care because of our expertise in treating these conditions.

Everything we do is meant to make children and their loved ones feel at home. Our family-centered, comprehensive treatment is designed to meet the physical, functional, cosmetic and social needs of those in our care.

Our hospital staff walks alongside our patients and families, through their experience and every aspect of their care. We call this *Love to the rescue*®.

The Cincinnati Shriners Hospital is one of only four freestanding hospitals in the country dedicated to the treatment of pediatric burns and specializing in plastic and reconstructive surgery. Our physicians' experience and expertise in pediatric burn injuries, cleft lip and palate, complex wound and skin conditions,

and plastic and reconstructive surgery make Shriners Hospitals for Children — Cincinnati a first choice for care for these conditions.

The Cincinnati Shriners Hospital offers expert treatment in the following areas:
