Job Description: Kitchen Remodel

"We can't recommend Dodge General Construction enough for any level of remodeling or renovation job. He recently remodeled our kitchen and we have been delighted with both the process and the result. He worked within our timeline, is easy to work with, and has great ideas. The kitchen looks amazing and is so much more functional. We have worked with many different contractors and this is the first time a remodel went off without a problem. We won't hesitate to use him again."
