

Sponsor Form

We are a small nonprofit that seeks to foster community and inspire creative reuse through environmental stewardship, education, and job creation.

The purpose of the CRM is to establish a location where people can donate acceptable items versus throwing items away as well as create a space for education and job training for low-income, unemployed, and/or homeless women.

In the long-term we seek to provide steady employment to the underserved, inspire and build a creative space for learning, and for decreasing the City's waste stream by diverting tons of materials away from our local landfill to be reused by teachers, students, artists, families, community groups, and/or redistributed locally.

Your generous contribution will have a lasting impact on the lives of women as well as our community.
