

Family Links

The Family Court Program assists families going through the Family Court System due to a separation or divorce. The Family Court Program allows either or both parents to spend time with their children under the supervision of Family Links. The objective of the program is to bring families, especially children and parents, back together by providing monitored visitation to ensure that both parents can spend time with their kids.

When individuals seek services from Family Links, we establish a contract with the court, court liaison, or the family directly. The families can then receive the services at a sliding scale rate, as we believe that all families should have access to their children, regardless of financial circumstances.

Thanks to the Family Court Program, Family Links has assisted more than ten (10) families. We will continue to offer our services and collaborate with courts, judges, lawyers, and families who discover us online or through the community. Thank you to our team members, Abigail Brown, Katie Beard, Stephanie Tichenor, and Felicia Smith,

for their effort in servicing our families.

If you're interested in these service offerings or providing these services, kindly contact your regional leader or Karlin Tichenor at drkarlinj@familylinksindiana.com with questions.
