

INTRODUCING THE NEXT GENERATION OF

NUVELLA

PERFORMANCE FABRIC

Nuvella is a solution-dyed performance fabric that offers high UV resistance and durability for high traffic areas. Some Nuvella slipcovers may be removable for machine washing and drying.

UV RESISTANCE

Exceeds industry standards for light fastness by 10x.
(Standard fabric lightfastness is 40 hours)

LOW CROCKING

Exceeds applicable AATCC 8 Voluntary Wet & Dry Crocking standards.

HIGH ABRASION

Minimum of 15,000 double rubs, exceeding heavy duty rating
(ASTM 4157 test methods)

FLAMMABILITY

Expected to meet California Technical Bulletin 117 smolder and open flame test.

STAIN RESISTANCE

Solution-dyed fabric is stain-resistant, without additional chemicals due to the full color penetration in yarn manufacturing process.

CLEAN & CARE

FOR LIGHT STAINED OR SOILED AREAS:

Loose stains such as dirt should be vacuumed off and then cleaned. Blot the stained/soiled area with a dry cotton cloth or paper towel to remove excess moisture. Apply mild soap and warm water directly to the stain with a cleaning cloth or sponge and gently rub the soiled area. Do not over rub and do not use a brush. Rinse thoroughly, Air Dry.

FOR STUBBORN STAINS OR MILDEW

Add 1 cup of bleach per gallon of soap and water. Apply directly to the stain with a cleaning cloth or sponge and gently rub the area. Do not over rub and do not use a brush. Rinse thoroughly, Air Dry.
