Evelina, to the evil cult that existed even before the world was created, is the Alpha. The one to guarantee them outright victory. All they must do is sacrifice her at Devil's Eye Island on her eighteenth birthday. Ultimate victory for them that will restore the kingdom of darkness and trigger the rise of the feared Devil's ghost, who are to sacrifice two-thirds of the population in the dreaded forty-eight hours of darkness. Evelina's death means the end of the world as we know it today, as the world will fall into complete darkness. The light will disappear forever, reverting the creation where God created light and divided the day into twelve hours of light and twelve hours of night.

Prevent Evelina's sacrifice on her eighteenth birthday, and she will become the Omega to those who stand for good. The only woman to prevent the restoration of the kingdom of darkness or the Devil's Eyes cult—a cult that existed even before God created the world. But this means that to restore the kingdom of darkness, the Devil's Eye cult must hunt and kill all the twenty-four Keys entrusted with secrets on how to open the gold Scriptures books with all hidden secrets that go beyond creation. Once all Keys are dead and all secrets are amalgamated into one person, this will trigger the rise of the Devil-Is-I, the leader of the dark world.

To prevent the restoration of the kingdom of Darkness and the rise of the feared, ruthless Devil's Ghost and the Devil-Is-I himself, the good team must not only find the Keys first but protect them as well. But it is a thin line between life and death when the Keys must also die to save all humanity. It is a tough choice because, as it turns out, saving the Keys also means the end of all humanity, as the Keys must also die to save all humanity.

What will the good side do when they discover that it is the Keys' destiny for them to die? Will the good team save a Key even if it means the end of all humanity?

This makes Evelina the most hunted woman on earth as the journey progresses. Both sides must have her dead to save their kingdoms. What will Evelina do when everyone, the Devil's Eyes and Tomorrow's World Order, wants her dead?

Whispers of an ancient evil cult in the form of the Devil's Eyes Cult, echoes of divine conflicts. In the storm, only Evelina can rise from the brink of being sacrificed alive to the position of the only woman to save all humanity from the Devil's Eyes Cult and its evil regime. From the Alpha to the Omega, as the most hunted woman on earth, the future kingdoms depend on her. Her journey will rewrite history. THE PLOT OF THE BOOK SERIES EVELINA.

In *Evelina: The Alpha*, a thrilling blend of action, romance, and mystery, we are thrust into a dystopian future where humanity teeters on the brink of extinction. Here is a glimpse into the plot:

Setting the Stage:

A thousand years have passed since a brutal regime rose to power, worshipping an ancient evil cult known as the Devil's Eyes cult and ruthlessly oppressing the populace.

Humanity is divided into two classes: the privileged Elites who serve the Cult and the Tomorrow's World Order who are part of the working class who toil for their survival.

Evelina, our protagonist, is an extraordinary young woman born into the working class. She has just turned 18 years old and possesses exceptional intelligence, beauty, physical prowess, and a strong sense of justice, unaware of the destiny that awaits her.

Unveiling the Truth:

Evelina's life takes a dramatic turn on her 18th birthday during a trip to Devil's Eye Island. A mix-up with another woman of the same name saves her from being sacrificed. The manhunt that follows leads her through a chain of revelations: she is the prophesied Alpha, the chosen one destined to overthrow the Cult and usher in a new era for humanity. However, as time progresses, she realizes that to the Kingdom of Darkness, she is the Alpha, meaning she must die first for them to attain victory. The sacrifice was intended to give the Devil's Eyes cult outright victory, allowing them to restore the Kingdom of Darkness—a cult they believed existed even before God's creation days. To make matters worse, she discovers that her sacrifice opens doors for the anointment of the President's nephew into riches. The Gold Scriptures, meant for those on the cult's list, promise a share of the world's riches. The president's determination to enroll as many members of his family into the cult and gain wealth associated with membership means imminent and inevitable death for Evelina, as he demands her sacrifice. But it is nothing personal; she just happens to be the key to the door for his nephew.

After escaping the sacrifice ordeal unharmed, she discovers that, apart from being the Alpha—the most hunted one to give outright victory to the evil cult—she is also the Omega. She is the one to hand victory to the good side with the inevitable and imminent death by the Kingdom of Darkness. This is because there is no way the regime, with all its military and ruthless leaders in Hudson and later Marson, would let her do that at their expense. That meant death.

After all this, she discovers that she is not only the Alpha and the Omega but also the Only True Seal. One with powers to erase and eliminate all other Keys and hand victory to the Devil's Eyes cult at the expense of Tomorrow's World Order and everyone who stands for good. This means changing sides and her becoming the most hunted woman on earth, as both sides now combine to hunt her, all with one goal: to kill her. To save humanity in the case of Tomorrow's World Order or to restore the Kingdom of Darkness.

Moreover, she was a Key as well. A special person chosen before birth to harbor secrets to the Gold Scriptures—the oldest book that existed before God’s creation. Twenty-four Keys were chosen, each representing an hour of the day and a chapter of the Gold Scriptures. Each Key was assigned to open a chapter of the Gold Scriptures and reveal secrets in that chapter. Secrets used to run the world and determine wealth and the course of history.

Evelina was not limited to opening only the chapter assigned to her; she possessed the power to stand for lost Keys in case of unexpected deaths among them. This meant she had the ability to override others. Hudson, the leader of the Devil’s Eyes cult, discovered the existence of the Keys, prompting him to embark on a ruthless journey to eliminate all of them. Evelina became a prime target amid all her ordeals. Recognizing that all powers would shift to the leader of the cult in her presence, Hudson assembled a determined team to kill her, securing not only her powers but also the wealth that accompanied them.

The revelation of a list containing all members of the cult triggered another manhunt by Tomorrow’s World Order. They sought to reclaim the lost seats representing Keys and hours of the day. This ruthless search and manhunt for Evelina occurred as the regime and the cult rushed to consolidate power, aiming to raise the feared Devil’s Ghost. The cult believed this entity would slaughter two-thirds of the population, including all those who stood for good, meaning Tomorrow’s World Order included.

Tomorrow’s World Order came to realize that the Devil’s Eyes cult, the regime, and the leadership in Hudson and Marson were exploiting Evelina to identify all other Keys. To prevent the deaths of the Keys, Tomorrow’s World Order had to find a way to stop Evelina from being used to locate them. This dire situation led to the conclusion that killing her was necessary to save all twenty-three Keys. To compound matters, Evelina held the keys to the Devil’s Ghosts. Her sacrifice or conception in later stages would trigger the rise of these dreaded entities—bloodthirsty assassins, celestials, or real humans. They would rise to protect the leader of the cult once all Keys had died, resulting in the consolidation of power into one, the

Devil-Is-I himself. Alternatively, they would protect the mother and child after Evelina or the other chosen woman had conceived, signifying imminent and inevitable death for all those who stood for good.

Evelina's powers to dictate other Keys and to override them as the Only True Seal posed dangers from other Keys who sought self-preservation. They perceived her as the problem and a threat to themselves. This introduces Stacey, a ruthless and tactical weapons specialist a former presidential bodyguard who discovered as well that she is one of the Keys.

In order to self-preserve, she targeted Evelina especially after discovering that if Evelina dies first then she can take her place. In an epic journey of survival, she embarks on eliminating Evelina first so that she become the Only True Seal and to make things worse the Catalyst. One to sped up things by automatically write-off everything in the scriptures and add even an additional chapter 25 changing the world we know today that has twenty-four to the day making future days have 25 hours to the day. The one that could erase all chapters and rewrite the Gold Scriptures. Meaning rewriting history and control the world's wealth. A big incentive to want Evelina dead. That means to stop the restoration of the Kingdom of Darkness meant the death of both Evelina and Stacey making these the most hunted and wanted dead.

This discovery catapults Evelina into a whirlwind of danger and adventure. She must navigate a treacherous world filled with blood-thirsty ruthless assassins in the Devil's Eyes member, their Devil's Ghosts, cunning politicians in the greedy President, Hudson, his nephew Jamie, Marson and others, and even those within her own circle who seek to betray her. To make things worse in Tomorrow's World Order and especially David who was now torn between a thin line of saving his men by killing the Keys first before the regime and its ruthless leaders and the Devil's Eye's cult kill the Keys to bring forward the end of the days meaning the beginning of the Kingdom of Darkness.

Love, Loss, and Rebellion:

Evelina finds unexpected allies in her journey, at first forging deep bonds with her childhood sweetheart Alex and attract the admiration of a courageous Elite soldier named Kai and a later an arranged soulmate by the name Calvin a carbon copy of Alex her childhood sweetheart.

However, her path is fraught with heartbreak and loss as Alex abandoned her to protect her only to find out that the regime and the Devil's Eye cult had her as the target from the word go and not himself as he had thought. Making him try to amend his mistakes resulting in his death and he became vicious and determined to find her and set the record straight that only her he truly loved. Something that made him underestimate risks resulting in his death. She witnesses the brutal and ruthless and determined manhunt to kill her from all sides of the earth. She grapples with reality of dying just as she had turned 18 years and still a virgin. Above the sacrifices she must make to fulfill her destiny. Whether to kill herself to save other Keys, to be killed to save all humanity, to be killed to restore the Kingdom of Darkness or to die for Tomorrow's World Order.

The story also explores a 'forbidden' romance between Evelina and Calvin at the end. An arranged married to a 'clone' of her childhood sweetheart Alex, adding a layer of emotional complexity to their fight against the regime in Marson and the Devil's Eye's cult.

Confronting the Darkness:

As Evelina hones her strength, skills and gathers her forces, she prepares for a final showdown against the Cult's tyrannical leader, the ruthless Marson and tries to form alliances with Tomorrow's World Order by challenging David to save her instead of his bodyguards as those who stand for good face annihilation by the rise of the feared Devil's Ghosts in the dreaded forty-eighty hours of darkness. It is a thin line between death and hope as the Alpha, the Omega, the Key has become also the Only True Seal to seal the end of the days and hand victory to David's enemies and trigger a new world order reigned by her unborn child and the Devil-Is-I meaning being spared

if she chose the Kingdom of Darkness at David and his men's expense.

It is a rush against time and fate to stop the regime, the Devil's Eyes, the rise of the Devil's Ghost and the conception by Evelina of the Devil-Is-I's child. The one to guaranteed doom for those who stand for good; Tomorrow's World Order included.

The climax promises an epic battle not just for freedom but for all mankind's existence and the fight for celestial powers as a win for the Kingdom of Darkness would also mean the reversal of God's creation. Meaning failing to solve God's Dilemma of enabling continuation of creation because all what the Devil's cult want is to reverse God's creation. Putting things as God's found them, where darkness was reigning. Imagine a world without creation? The defeat of God. Where Evelina must harness her inner strength and courage to overcome insurmountable odds.

Their enduring love, despite external pressures and dangers, represents the power of human connection and the importance of cherishing loved ones. This positive portrayal avoids harmful stereotypes and focuses on the supportive and uplifting aspects of their relationship.

4. Focus on Overall Narrative:

BATTLE FOR THE SEATS - THE SEVEN SEATS NEEDED TO DEFEAT THE KINGDOM OF DARKNESS

The "Battle of the Seats" is a complex and high-stakes operation designed to overthrow the current system by neutralizing digital weapons and creating a new world order. The process involves multiple phases, each with its own set of rules and challenges. Here is a breakdown of the process and rules:

1. Initial Assignment

A mysterious figure, David, assigns the task of disrupting the existing system to a team led by Carolina and Evelina.

The objective is to distribute at least one million dollars of digital currency to twelve recipients in each phase.

2. Phase Structure

The battle consists of twelve or more phases, and each phase involves selecting twelve recipients for the digital currency distribution.

The phases remain open until all twelve recipients from the previous phase are protected, and any failure to protect a recipient keeps the phase open with additional assassins.

3. Recipient Protection

The team must protect all recipients from assassin attacks, as losing even one recipient keeps the phase open, leading to the deployment of more assassins.

Failure to protect recipients means additional assassins in the subsequent phase.

4. Assassin Grading

In the first phase, lower-grade assassins are sent. However, as the battle progresses, higher-level assassins are deployed.

5. Recruitment Process

Carolina, as the leader of the first team, is responsible for recruiting new members to expand the operation.

The goal is to exchange digital currency for cash until everyone adopts the new digital currency, leading to the defeat of the current system.

6. Neutralizing Digital Weapons

The team's digital currency is designed to neutralize digital weapons, trapping them for later deciphering to identify the culprits.

7. Legal Action

Once digital weapons are neutralized, the team plans to obtain court orders to eliminate the identified culprits.

8. Ultimate Goal

The ultimate goal is to create a better world by trapping digital weapons and eliminating those who pose a threat to humanity.

9. High Stakes

The risks are high, and failure could result in the release of lethal assassins every hour, posing a significant danger to the team and humanity.

10. Multi-Phase Strategy

In subsequent phases, roles are assigned, digital currencies are distributed, and new leaders are nominated.

Assassins from the next stage target the established leaders, and failure to protect them results in an increased number of assassins for the next phase.

11. Effect of Leader's Death

If the leader of a group is killed, an extra seat or hour is granted to the opposing side, increasing the stakes and risks.

12. Symbolic Representation

The battle involves a symbolic representation of the struggle between good and evil, with twelve seats representing hours of darkness (devil) and twelve representing hours of sunshine (God).

13. End Goal

Achieving a complete takeover of the devil's seats signifies victory for good, leading to a countdown to a new era, symbolized by the second coming of the son or sun.

14. Consequences of Giving Up

Surrendering means handing victory to the opposing side, risking the destruction of humanity.

15. Paradigm Shift

The battle aims to achieve a paradigm shift by taking control of the devil's seats and suppressing digital weapons, bringing about a world dominated by goodness.

Despite the complexity and risks, the team is committed to fighting until the end, emphasizing the potential rewards for humanity if successful.

Additional Context:

God's Dilemma Solved:

David, the chosen leader, is described as the one who will unite the world using a global digital currency, solving God's Dilemma.

The digital currency, being invisible and omnipresent, symbolizes

God's omnipresence, residing in every person's wallet or heart.

The defeat of the devil represents the defeat of all negative elements, including digital weapons causing genetic damage and diseases.

Implications:

Ultimate Goal Clarification:

The ultimate goal is not just neutralizing digital weapons but creating a paradigm shift towards a better world, raising living standards, self-esteem, and education.

Opposition and Reversion:

Stopping the Process:

Reverting to the current system involves assassinating the twelve new recruits holding the devil's seats or hours.

Odds are against the opposition, as the team needs to maintain an imbalance of at least one extra seat or hour.

System Dynamics:

Assassin Escalation:

Failure in the initial phase triggers a new generation of assassins, becoming faster and more lethal.

The system adapts, similar to a human body, growing to counteract and prepare for more challenging tasks.

Team Challenges and Dynamics:

Loss and Retrieval:

Losing team members without reclaiming a stolen hour poses a significant challenge.

The system selects recruits based on specific criteria, limiting the team's ability to choose members.

Leadership and Communication:

Carolina emphasizes that every team member is valuable and attempts to alter protocols or question commands face resistance. Effective communication is crucial to prevent misunderstandings and ensure the team's success.

Operational Details:

Delayed Launch Consequences:

Delays in consecutive assassins are not permitted, but a temporary hold may occur. A delay of more than twenty-four hours automatically terminates the system.

Initiating a New Cycle:

If desired, a new cycle can be initiated to extend the hours by starting a fresh sequence after a phase premature termination.

Real-world Scenarios:

Personal Threats:

Rodney faces a personal threat from an assassin who attempts to coerce him into being a target, showcasing the high stakes and dangers involved.

The "Battle of the Seats" not only involves the tactical distribution of digital currency and protection of recipients but also signifies a larger mission to reshape the world. Concept and Purpose:

The Kingdom of Darkness represents the forces of chaos, destruction, and oppression. The Dev-il-Is-I, its leader, seeks to consume all light and plunge the world into eternal darkness. To combat this threat, a prophecy speaks of the "Seven Seats of Power," each holding a specific ability or domain needed to defeat the regime and cult. Claiming these seats requires individuals with unique talents and unwavering resolve to face formidable challenges.

Types of Battles:

Each Seat is associated with a distinct test or battle tailored to the specific power or domain it represents. These battles can be physical, mental, emotional, or spiritual, demanding different strengths and resources from the contenders.

Significance of the Battles:

Claiming the Seats of Power is not just about personal accomplishment; it is crucial for uniting the forces of light and preparing for the final confrontation with the Devil-Is-I. Each Seat strengthens the individual and contributes to the collective power needed to overcome the Kingdom of Darkness.

The Battles for the Seats serve as a crucible for character development, forcing contenders to confront their weaknesses, hone their skills, and solidify their commitment to the greater good.
