WILL USE AUTO BUGGY FOR MAKING DELIVERIES

Two Residents of County Purchase
Vehicles for Business Purposes.

The Harris S&S company sold last week to L. W. Burnham of San Diego a 1910 model International auto wagon, which Mr. Burnham will use as an express delivery wagon, partly for transportation purposes between this city and his ranch in the El Cajon valley, and as a pleasure vehicle. He says he finds it well adapted to all three purposes.

Another of the 1910 models was delivered to George L. Morris, the bee man of Fallbrook and De Luz. Morris has several apiaries in the mountains and will use this wagon for transportation purposes between them and for camping and hunting trips as well.
