

THE DE LUZ SPRINGS, WITH 160
acres of good land, now for sale. Only
three hours from San Diego. A rare chance for
investment. Description: The De Luz Warm
Mineral Springs, long known among the old
Spanish settlers for their medicinal qualities,
are situated in the northwest part of the county,
fifty miles from San Diego and five miles from
the California Southern railroad. They lie in a
beautiful little valley near the top of the moun-
tains. The climate is mild and delightful. The
scenery grand and picturesque. The mountains
furnish an abundant supply of the coolest and
purest of water. From the banks of a little
creek gush out several warm mineral springs,
which have already established considerable repu-
tation for curative properties. Deer and other
game abound. Climate, scenery and water com-
bine to make this one of the most charming and
healthful locations for a mountain resort in
Southern California. The owner, being too old
to superintend their development, now offers the
Springs for sale. Price only \$12,000. Terms
easy. N. B.—Unless the weather is threatening
a conveyance will be at De Luz station every
Friday to meet prospective buyers. Take the
early morning Los Angeles train from San Diego
for D: Luz station. Address, Charles J. Carr-
bell, De Luz postoffice, San Diego county, Cal.
