

**RUSSELL STONE PRODUCTS -- CLASS II APPROVED
SANDSTONE and TYPE III EPD STONE**

This residence was recently completed in Pittsburgh using our Bloom Run Stone sandstone and we wanted to share a few of the photographs with everyone

The architects, Cullen and Associates of Pittsburgh provided the design and Avanti Construction of Pittsburgh was the builders.

Jubic Masonry of Finleyville Pa. did the great masonry work!

The stone used on the residence was a combination of stone panels and sawn bed building stone, sawn on 4 sides with hand rock faced fronts.

Emblems, medallions and the entrance were created using our CNC machines.

Walls were added as part of the landscape design.

Garage and outdoor grilling area

Remember, no project is too big or too small. We can handle your project of any size with our world renowned team. Call us today with questions or ideas you might have for any upcoming projects.**

Let us help you get your next project underway.
