

**RUSSELL STONE PRODUCTS -- TYPE III EPD and CLASS II
APPROVED SANDSTONE**

As everyone is continually thinking about upcoming challenges and projects, we thought it would be a great time to share a few pictures from some of our completed projects that showcase some of our capabilities on the interiors of buildings.

Interior wall panels for large and small projects.

Our craftsmen are able to provide quality carvings whenever unique designs are required.

Interior walls and flooring in a variety of textures and color ranges

The Wilkes-Barre/Scranton International Airport is an example of one of the many large buildings we had the pleasure of providing the stone that was used on it's interior construction.
