

Equipment Financing

Setting ourselves apart through in-depth industry knowledge, customized solutions, integrated technology, and a sense of urgency.

- ✔ We've partnered with one of the nation's top equipment financing lenders, a \$2.2 billion financial institution with over 30 certified lease finance professionals (CLFP) on staff
- ✔ Nationwide lending footprint, all 50 states + D.C.
- ✔ Approvals are usually issued within a few hours and funding can occur same day Flexible
- ✔ financing terms and rates starting in the 4% range

We are a conduit between the lender and your business, facilitating the funding of your deals.

- **\$10,000 to \$5,000,000** financing sizes
- **60-month financing terms** available
- **670 credit minimum** (down to 650 considered with compensating factors)
- **100% financing on equipment purchases** (0% down payment required). This does not apply for startups, in most cases a down payment would be required on a purchase for a startup.
- **Loans up to \$150K are application only** (larger financings can be considered case-by-case with an application only when compensating factors are not required)
- **Most industries are eligible** (certain restrictions may apply)

- **No minimum time in business** on most deals, equipment financing for startups is available, but 3 months bank statements are required.

Startups require 700+ credit and strong compensating personal financials and industry experience. Long-haul trucking requires 700+ credit, 2 years minimum time in business, and 2+ trucks owned for at least 6 months.

- **Any NEW or USED mission critical equipment** (mission critical meaning that it is essential to the operation of the business)
- **Custom payment structures available** to meet the needs of the business: delayed payments, seasonal payments, step payments, semi-annual payments, etc.

Contact us at the information below to learn more about equipment financing options or to submit your request today!
